CHAPTER – 9

AUTHOR’S RESEARCH PUBLICATIONS
AUTHOR’S RESEARCH PUBLICATIONS

Papers published/accepted/ communicated in International Journals by the author incorporated in to thesis:

**Journals Published**

**Journals accepted for Publication**

5. “STATCOM based damping controller in power systems for enhance the power system stability” submitted and accepted for publication subject to minor revisions in *International Journal of Electrical and Electronics Engineering*.

6. “Power system stability improvement by simultaneous tuning of PSS and SVC based damping controllers employing differential evolution algorithm” submitted and accepted for publication subject to minor revisions in *International Journal of Electrical and Electronics Engineering*. 
Journals under Review

8. “Power system stability improvement by static var compensator based damping controller considering time delay employing gravitational search algorithm” communicated to *Journal of Electrical Engineering*.

Papers in International Conferences:
