ACKNOWLEDGEMENT

Good achievements are based on the Grace, Goodness and Greatness of God Almighty and assistance, co-operation and guidance of God’s good people. In this connection, I thank, praise and adore THE GOD ALMIGHTY for His Grace, Goodness and Greatness that I enjoyed throughout my research tenure. In addition, I wish to show my gratitude towards God’s good people in this slice of acknowledgement.

My gratitude is towards my guide Dr. S.DAWN DHALMA ROY (Principal & Associate Professor of Physics, Nesamony Memorial Christian College, Martandam) not only for his valuable suggestions, precious discussion and inspiring guidance during the entire research period but also for his constant interest, continuous involvement and undiminished dedication for the great success of this research endeavor and my co-guide Dr. N. ARUNACHALAM (Professor & Head Retired, Department of Physics, Manonmaniam Sundaranar University, Abishegapatti, Tirunelveli) for his exceptional encouragement, splendid suggestions and gifted guidance.

My gratitude is also towards Dr. R.V.JEBA RAJASEKHAR (Assistant Professor, Department of Physics, Government Arts College, Melur) and Dr. TENNYSON DANIEL (Scientific Officer, Regional Test Centre (Solar Thermal), Madurai Kamaraj University, Madurai) for their productive suggestions, fertile discussions and inspiring technical guidance in connection with the testing of evacuated tubular solar fluid heating systems.
My appreciation is towards my mother Mrs. V.JEBA MONY, my wife Mrs. L.C BIRLA ANGEL, my beloved daughter J.B. JEROSHIKA ANGUS, my brother Mr.P.J.EDWIN SAHAYA JOSE, my sister Mrs.P.J.MERLIN SHEELA RANI, my brother in law Mr.S.ANBU, my sister in law Mrs.S.M. PRAVEENA JAIN, children A.ASHIKA, A.AKASHIYA, E.EPINO JAIN, E.JOSNA JAIN, Father in law Mr.P.LAWRANCE and Mother in law Mrs.CHristal LEELA for their encouragement, assistance and prayers for the successful completion of this research work. This thesis would not have been possible without the encouragement, assistance and prayer support provided by them.

My appreciation is also towards my best friend Mrs. T. ANITHA BABY for her encouragement, support and prayers and all my friends as well as well - wishers for their affection encouragement and prayers for the successful completion of this research contribution.

P.J.JEGAN BABU
