Acknowledgements

‘Emotions’ cannot be adequately expressed in words, because then emotions are transformed into mere formality. However, formalities have to be completed. My acknowledgements are much more than what I am expressing here.

First and foremost I would like to express deep sense of gratitude to ‘Almighty God’ without whose blessings it is simply impossible to accomplish any task.

I have immense pleasure in expressing profound sense of gratitude towards my advisor, Dr. R.K. Jain, Professor, Department of Food Processing Technology and Principal A.D. Patel Institute of Technology, New Vallabh Vidyanagar, Anand, for his creative guidance, genuine incitement, genial disposition and timely constructive suggestions throughout the course of investigation and final shaping of this manuscript.

I am greatly indebted to Dr. C.L Patel, Chairman Charutar Vidyamandal, Vallabh Vidyanagar, for permitting me to pursue this course as an in-service candidate.

I am very much grateful to Dr. V.S. Patel, Director, Sophisticated Instrumentation Center for Applied Research and Testing, Vallabh Vidyanagar for his valuable suggestions and providing laboratory infrastructure for the research project. Sincere regards are also due to Dr. K.V. Patel, Head, Department of Food Processing Technology, ADIT, New VV Nagar, for his encouragement and sustained support during completion of this project.

The enthusiastic, cheerful and self less encouragement of my friends, through both the dark and bright phases of my life has been invaluable to me. Though inadequate, I would like to thank Ajay Tapre, Pravin Ganorkar, Dr. A.S. Kulkarni, F.M. Sahu and Yogesh Garge, just few to mention and all the
colleagues at Department of Food Processing Technology, ADIT. Special thanks are due to Dr. S. Srivastav and Dr. Ramji M. Makwana for their help during preparation of this manuscript.

I would also like to place on record the cooperation extended by Dr. Parag Sutar, Dept of Food Processing Technology and Bioenergy, AAU, Anand particularly for the statistical analysis. I could not forget the help and support of Samir Patel, Jignesh Patel, Raina Patel, Hetal Patel, Mahendra Patel, Vijubhai Paramar and Dinesh Solanki, the supporting staff at Dept. of Food Processing Technology, ADIT and Mr.M.C. Solanki, and Mr. K.K. Tiwari at SICART.

I am thankful to alumni of Dept of Food Processing Technology, Mohammad Lakadawala, Forum Sirodaria, Nikunj Patel and Nikhil Nair who helped in initial laboratory trials.

I would like to extend an unperceived depth of reverence towards my parents, family members, Kaka, Maushi, and in-laws who have constantly showered blessings and stood by me steadfastly throughout the walk of life.

I owe a lot to my wife, Prashansa, the source of strength, cooperation, understanding and inspiration and beloved son Ronit who attuned with me during period of this research project.

While travelling on the path of life from education to profession many hands pushed me forth, I ever remain thankful to them all.
