First and foremost I want to thank my advisor Dr. D. M. Pore. It has been an honor to be his first Ph.D. student. He has taught me, both consciously and un-consciously, how good experimental synthetic chemistry is done. I appreciate all his contributions of time, ideas, and funding to make my Ph.D. degree. The joy and enthusiasm he has for his research was contagious and motivational for me, even during tough times in the Ph.D. pursuit.
