It will amount to a great failure if the author does not express his deep sense of respect and thankfulness to his elder brother, Dr. Murlidhar Khubchandani, Development Scientist, Dabur (India) Limited, Sahibabad (U.P.) for his valuable cooperation and encouragement in absence of which the work would not have reached to completion.

This record of my debts will not be complete without grateful mention to my parents and my wife, Mrs. Lalita Khubchandani who helped me in various ways and contributed towards the successful completion of this work.

I am highly obliged with Dr. (Mrs.) Savitri Devi Srivastava, Lecturer in Organic Chemistry, Department of Chemistry of this University for constant encouragements, constructive and helpful comments and affectionate interest throughout the progress of the work.

I am also deeply grateful to the University Grants Commission, New Delhi for providing me a Junior and Senior research fellowships during the tenure of my research work.

Lastly, but certainly not least I wish to express my thanks to Dr. V.K. Agnihotri, Mrs. Kalpna Gupta, Mr. Aruni Kumar Jain and Ku. Durga Nema my colleagues in the laboratory for their valuable suggestions and help.

[ M.L. KHUBCHANDANI ]
