Acknowledgement

First, I thank Almighty, the gracious and merciful, lord of the worlds for providing me with the opportunity to complete this work successfully. However, it is also a fact that this work would have been impossible without the help extended to me by different people at different times, which necessitates their mention here.

I feel highly obliged in expressing my deep sense of gratitude to Prof. M. Y. Shah, Head, Department of Pharmaceutical Sciences, University of Kashmir, for being an inspiration for this work. His buoying me in times of desperation with kind words of encouragement and unstinting help is worth mentioning. His continued interest, encouragement, guidance and sympathetic attitude meant very much in bringing up this thesis successfully.

My sincere thanks are due to Prof. Shakir Ali, Head, Department of Biochemistry, Jamia Hamdard, New Delhi, the architect of this work, whose esteemed guidance, deep knowledge, constructive criticism and super vision brought this thesis to present shape. Conceiving, planning and executing the research under his guidance has been really a pleasure. Let this thesis bear ample testimony of his tireless contribution in this research work.

I am very much thankful to Dr. Kaleem Javed, Reader, Department of Chemistry, Jamia Hamdard for his scholarly help and guidance.

The help extended by various people in the animal house, Jamia Hamdard is appreciated.

My sincere thanks to Prof. M. L. Bhat, Head, Department of Pathology, Government Medical College Srinagar and Dr. Bilal for their painstaking help in the histopathological studies.

I owe special thanks to Prof. A.R. Nakshi, consultant taxonomist, Department of Pharmaceutical Sciences, University of Kashmir for his untiring help in the identification and collection of plants used in this study.

The help extended during the course of studies by Mr. Mustafa Khan and Mr. Shoaib Siddiqui is worth mentioning. Also the help, cooperation and encouragement extended by my lab. Colleagues Mr. Naim, Mr. Altaf and Mr. Ram Prasad is unforgettable. Special thanks to Mr. Ram Prasad who helped a lot in compiling and formatting this thesis and to Mr. Islamuddin for his help throughout the studies.
I am very much thankful to Dr. Z. A. Bhat, Senior Assistant Professor, Department of Pharmaceutical sciences, University of Kashmir for his untiring help, support and scholarly guidance. Also to other faculty members Dr. Naheed Tabassum, Dr. M. H. Massoodi, Dr. M. I. Zargar, Mrs. Sabeeha, Mr. M. I. Geer, Mr. Mudassir Mohammad, Mrs. Humaira, Mr. I. A. Chashoo and Mr. Popinder Singh. I must acknowledge the help and constructive criticism in particular by Mr. N. A. Khan. Also the help extended by Mr.M.A.Kinnani, Mr. Rafiq, Mr.Mashooq, Mr. Intiyaz, Mr. Riyaz, Mr. Merajuddin and others is worth mentioning.

I thank Almighty for bringing me up in a family which has been always supportive and stood by me in difficult times and beared my all frustrations. I must mention the eagerness of my late father for this work, but could not see it complete. May his soul rest in peace in the heaven. I am highly indebted by support, encouragement and good wishes extended by all the family members. The prayers of my mother for the successful completion of this work and the support and encouragement by my sisters Dr. Hamida, Nazira and Dr. Diladen is worth mentioning.

Special thanks to my wife Qurat and kids Sehba and Sabit. They have stood by me in turbulent times calmly and coolly.

I am highly thankful to all my friends and well wishers who helped me in different ways throughout these studies, whose names I have missed. May God bless them all.

Gh. Nabi Bader
