ACKNOWLEDGEMENT

In the accomplishment of my research work I came across several people but few of them left a strong impression on me. At the outset, I feel overwhelmed to spell such few names those were the basic force behind this research work and their support helped me go and accomplish this tedious task.

My greatest gratefulness goes to my supervisor Dr. Nasib Singh Gill, Professor and Head, Department of Computer Science & Applications, Maharshi Dayanand University, Rohtak (Haryana). It was him who raised me when I was at bottom of my research life, by pointing me in the right direction, and bringing me the confidence. He kindly shared his experience, and helped me build up expertise. His great insight, intelligence and experience have greatly influenced my life. Although it is always difficult to translate the feelings of regards and reverence into reality, yet it is detectable when I execute my sense of profound tribute to my supervisor, whose earned effort has given fullness to my modest endeavor. Diction seems inadequate to express my appreciation for his sagacious guidance at each step, unfailing interest, critical appreciation and moral inspiration.

I would like to express my myriads of inexpressible thanks and immense gratefulness to Dr. R. S. Nirjar, Hon’ble Vice Chancellor, Gautam Buddha University, Greater Noida (U.P.) for not only providing the facility but for his benevolent and sagacious guidance, perfect criticism, constructive counsel, creative ideas, sustained encouragement and care since the very first day I came in contact with him. I express my profound gratitude to him for his ever lasting inspirations, ceaseless help and unfading interest during the last phase of my research.

I owe my great thanks to Dr. Sanjay Jasola, Professor and Dean Academics, Gautam Buddha University, Greater Noida (U.P). He had great influence on me, directing me and others to higher level of thinking by showing the connection of various topics and exposing areas that haven’t been previously explored. He always encouraged me and got me exposure to work on different technology.

I convey my sincere thanks to Dr. Rajender Singh, Professor, Department of Computer Science & Applications, Maharshi Dayanand University, Rohtak (Haryana) for helping me in all possible ways to complete my research work.
I am also grateful to Sh. Prem Prakash, Sh. Rameshwar Sharma, Mr. Bal Kishan, Mr. Raj Kumar, Mr. Sushil, Mr. Surjit, Mr. Subhash, Ms. Roshni, Mr. Amit and Mr. Amit Pal for their timely help and support. I am also thankful to faculty members, research scholars, research associates and non-teaching staff of the Department of Computer Science & Applications, Maharshi Dayanand University, Rohtak (Haryana) and School of Information and Communication Technology, Gautam Buddha University, Greater Noida (U.P.) for providing moral support and helping me in overcoming stress conditions.

I would also like to express my appreciation to my wife Dr. Shivani Tomar for her kind cooperation and love. This work would not have been possible without the collaboration and the invaluable help from her.

I convey my sincere thanks to Ms. Vrishee Anand, School of Aerospace, Mechanical and Manufacturing Engineering, RMIT University, Melbourne, Australia for helping me in all possible ways to complete my research work.

A formal line of appreciation would hardly meet ends of justice in expressing my sincere thanks to my friends Karamveer, Avtar, Rajesh, Ashwani, Gurvinder, Gurdev, Gulzar, Dalvinder, Chaman, Ved, Rishi, Gulab, Rajender, Mohan, Tarun, Sandeep, Sanjay, Pervender, Vijay, Neeraj, Kapil, Satish, and Anil for their help, care and moral support.

I consider myself fortunate to have very affectionate late papa who is always with me and mummy, loving brothers (Mr. Praveen and Mr. Abhinav), bhabhi (Ms. Manju), sisters (Ms. Suman and Ms. Savita), jija ji (Mr. Vijay Ravish and Dr. Ombir Singh) and also my in-laws who have been the pillars of strength, inspiration and moral support whatever little I could achieve in life because of their support. I am also indebted to my nephews little Devansh, Sanket, Kartik, niece Jasmine, Yashika, Apnav and Savvy, sister and brother in-law Ms. Shaily and Mr. Mayank who always expected of me to achieve something new and really their this desire boosted me to achieve this research. They shared all my good and bad times with encouraging smiles.

Last, but not the least, almighty God has always been the invisible divine force behind my accomplishments.

(PRACHEEP TOMAR)
