ACKNOWLEDGEMENTS

It gives me an immense pleasure to express my grateful thanks to Professor B. JAGANNADHA REDDY, who has indeed taken a great deal of interest and initiative in my academic progress by introducing me into the research programme. Without such an inspiration and enlightenment it is really a difficult task for me, individually to undertake the research pursuits.

I am equally grateful to Prof. Y. PRABHAKARA REDDY, Registrar, S.P.M.V.V. Tirupati, Dr. P. SAMBASIVA RAO, Reader, Dept. of Chemistry, Univ. of Pondichery, Pondichery and Dr. S. VEDANAND, Scientific Assistant, Forensic Laboratories, Hyderabad, who extended their full support and consistent cooperation at all times of my approaches to them during the progress of the research work.

My gratefulness are also due to the senior academicians of this department Prof. J. LAKSHMANA RAO, Dr. L. RAMA MURTHY, Dr. S. BUDDHUDU, Dr. B. SREENIVASULU NAIDU, Dr. P. NARASIMHA REDDY, Dr. S. UTTHANNA, Dr. K. T. R. K. REDDY and Dr. K. SUBBARAMAIAH for their encouragement during the period of my work.

With all happiness, I acknowledge the cheerful coordination rendered to me by fellow-colleagues, Messers B. MADHU SUDHANA, A. V. CHANDRA SEKAR, R. V. S. S. RAVIKUMAR, S. NARASIMHA REDDY, S. LAKSHMI REDDY, G. JAYAPRAKASH BABU, V. SUBBA REDDY, Dr. G. AMARANATH, T. BALAGI, and M. YARRAIAH at the
time of my experimental work and also at the time of my thesis compilation. The affection showered on me by the scholars of the other laboratories of this department is gratefully acknowledged.

I express my heartfelt gratitude to my beloved and revered parents Sri G. SUBBANNA and Smt. G. ADILAKSHUMMA and to my admiring brothers SRI SUBBA RAYUDU, VENKATESWARLU and SHIVASHANKAR and my sister Smt. LAKSHMIDEVI and to my brother-in-law SRI NARASIMHULU also to my Sister-in-law Smt. RAMANAMMA, without their moral support and prayers for my well-being, the present thesis could not have taken this form.

My profound and hearty thanks to The Head, RSIC, Indian Institute of Technology, Madras and their staff, for providing facilities to record most of the Optical Absorption, EPR and Vibrational Spectra.

Finally, it is my privilege in expressing grateful thanks to the authorities of SRI VENKATESWARA UNIVERSITY, TIRUPATI, INDIA for their administrative support during the course of the work.

(G. SRINIVASULU)
