This journey of the Ph D programme was a profound learning and intellectually edifying experience for me both personally and professionally. The dissertation would not have been possible without the guidance and the help of several individuals who directly or indirectly contributed and extended their valuable assistance in the preparation and completion of this study. This moment for me is to remember and acknowledge the blessings, guidance, co-operation and support I received throughout my Ph.D Programme.

To God the Almighty, I thank for the strength that kept me standing and for the hope that kept me believing that this work would be possible. Thanks for the strength and perseverance to get over the hurdles on my way and taking care of my family in these years with His caring hand.

I was extremely fortunate to have Prof. Dr Vrinda Datta as my mentor and guide. I would like to specially acknowledge the support I have received from NGO Yuva to enter into the area of my Data collection at Dharavi which otherwise seemed distant and impossible on my part.

My special thanks to Jyashree Medar who really made my access into Dharavi easier.

I owe a lot to Laxmi Shinde (who is recognized as a Pratinidhi of all 70 SHGS working under Yuva) whose company at initial stage of my struggle to access to Non-SHG members made easier.
I deeply acknowledge the sincere co-operation of all the participants of my target group without whom it wouldn’t have been possible.
