</tbody>
</table>
2.4 Studies related to the incidence of conduct disorders

2.5 Studies related to specific areas of problems of conduct disorders

2.6 Studies related to interventions of students with conduct disorders

2.7 Studies related to conduct disorders in India

2.8 Review of studies as a basis for formulating objectives and hypotheses

CHAPTER-III METHODOLOGY

3.0 Introduction

3.1 Hypotheses

3.2 Sample

3.3 Procedure for collection of data

   3.3.1 Identification and selection of students with conduct disorders

   3.3.2 Diagnosis and assessment of students with conduct disorders

   3.3.3 Identification of normal students

   3.3.4 Comparison of normal students and students with conduct disorders

3.4 Description of the tools employed

   3.4.1 Tools used at the identification phase

   3.4.2 Tools used in the diagnostic stage

3.5 Conclusion
CHAPTER-IV  IDENTIFICATION OF STUDENTS WITH CONDUCT DISORDERS AND THE SELECTION OF NORMAL STUDENTS

4.0 Introduction 146

4.1 Identification of students with conduct disorders 146

4.2 Identification of a group of normal students 154

4.2.1 Procedures adopted in meeting the exclusionary and inclusionary criteria for selecting normal students 154

4.3 Comparability of two groups 155

CHAPTER-V  ANALYSIS OF THE DATA RELATED TO IDENTIFICATION OF PERCENTAGE OF STUDENTS EXHIBITING CONDUCT DISORDERS WITH RESPECT TO THE DEMOGRAPHIC VARIABLES

5.0 Introduction 156

5.1 Percentage of students with conduct disorders 156

5.1.1 Number and percentage of students with conduct disorders 157

5.1.2 School and gradewise distribution of students with conduct disorders 157

5.1.3 Gradewise distribution and percentage of students with conduct disorders 158

5.1.4 Number of students with conduct disorders in rural and urban areas 161

5.1.5 Number of students with conduct disorders in different types of school 162

5.2 Frequency of students with conduct disorders demonstrating different types of conduct disorders 162
ANALYSIS OF THE DATA RELATED TO THE PERFORMANCE OF STUDENTS WITH CONDUCT DISORDERS AND NORMAL STUDENTS

6.0 Introduction 186

6.1 Results of t-test 186

6.1.1 Verification of hypothesis related to self concept 187

6.1.2 Verification of hypotheses related to social skills problems 188

6.1.3 Verification of hypothesis related to scientific attitude 189

6.1.4 Verification of hypothesis related to social cognitive skills 191

6.1.5 Verification of hypothesis related to assertive skills 192

6.1.6 Verification of hypothesis related to emotional intelligence 194

6.2 Comparison of students with conduct disorders and normal students in terms of specific skills lacked by them 195

6.2.1 Comparison on positive self-concept between students with conduct disorders and normal students 196

6.2.2 Comparison between students with conduct disorders and normal students on social skills problems 199

6.2.3 Comparison between students with conduct disorders and normal students in terms of scientific attitude 203
6.2.4 Comparison between students with conduct disorders and normal students on social cognitive skills 206

6.2.5 Comparison of students with conduct disorders and normal students on assertive skills 210

6.2.6 Comparison of students with conduct disorders and normal students on emotional intelligence 213

6.3 Conclusion 216

CHAPTER-VII  INTERVENTION FOR STUDENTS WITH CONDUCT DISORDER

7.0 Introduction 219

7.1 Planning the remedial programme for students with conduct disorder 220

7.1.1 Principles underlying the intervention programme 221

7.1.2 Approaches and strategies employed for developing the remedial programme 224

7.2 Sample lessons 261

CHAPTER-VIII  VALIDATION OF THE INTERVENTION PROGRAMME

8.0 Introduction 298

8.1 Experiment conducted to evaluate the remedial programme 298

8.2 Design of the experiment 302

8.3 Pre-test 303

8.4 Controlling the intervening variables 304

8.5 Treatment 304
8.6 Duration

8.7 Measures taken to overcome specific difficulties

8.8 Post-testing

8.9 Analysis and discussion of results related to the remedial programme

8.9.1 Comparison of the mean performance of the subjects on pre-test and post-test

8.9.2 Details regarding the comparison of pre-test and post-test of individual cases

8.9.3 Comparison of students with conduct disorders on pre-test and post-test on problem solving skill

8.10 Analysis of pre-test and post-test performance of the experimental group

8.11 Major findings at the remedial phase of the study and discussion

CHAPTER-IX SUMMARY AND CONCLUSION

9.0 Introduction

9.1 Need for the study

9.2 Statement of the problem

9.2.1 The problem

9.2.2 Nature and scope of the study

9.2.3 Objectives of the study

9.2.4 Hypotheses of the study

9.3 Methodology

9.3.1 Sample
9.3.2 Identification of students with conduct disorders 344
9.3.3 Diagnosis and assessment of students with conduct disorders 345
9.3.4 Selection of normal students 347
9.3.5 Development of intervention programme for students with conduct disorders 347
9.3.6 Analysis of data 349
9.4 Major findings and their interpretation 350
9.5 Educational implications 360
9.6 Suggestions for further study 361

BIBLIOGRAPHY

APPENDICES

Appendix-A: Self concept scale for children I
Appendix-B: Ten subscales of child behavioural checklist II
Appendix-C: Schedule for assessment of behavioural problems in children IV
Appendix-D: Scientific attitude scale IX
Appendix-E: Select the best alternative test XIII
Appendix-F: Assertive skills assessment questionnaire XVI
Appendix-G: Social skills problem checklist XIX
Appendix-H: Emotional intelligence XX
Appendix-I: Problem solving skill test XXII
Appendix-J: Assertive skills assessment questionnaire (Malayalam version) XXIII
Appendix-K: Select the alternative test (Malayalam version) XXV
Appendix-L: Scientific attitude scale (Malayalam version) XXVIII
