ACKNOWLEDGEMENTS

I am highly indebted and wish to express my deep sense of gratitude and heart felt thanks to Dr.K.M.Khaleel Reader and Research guide P G Dept. of Botany and Research Centre, Sir Syed College, Taliparamba for his valuable guidance throughout the course of investigation. His immense patience, knowledge, and constant criticism have been most useful during my research work.

It is my duty to record my thanks to the Principal and Management of Sir Syed College, Taliparamba. I am thankful to Smt.Abidal bee bi (HoD) and other Staff of Dept. of Botany and Research Centre, Sir Syed College for the laboratory facilities provided.

Special thanks to Smt.I.V.K.Indira (HoD) and the Laboratory assistants Dept. of Chemistry Sir Syed College, Taliparamba for providing chemicals whenever needed.

I am grateful to the Managing director P.K.Mohammed, Western India Plywoods, Vallapattanam, Kannur for providing me the samples for the study. I feel great pleasure to express my heartiest gratitude to Dr.E.Srinivasan, Senior Scientist, Western India Plywoods for his endless co-operation, suggestions and support throughout the study. I also thank Vijayraghavan.K, Senior Executive, Western India Plywoods for his guidance in the analysis of the samples.

It is my pleasure to acknowledge Dr.Jayaraj.P, Pepper research institute,Panniyoor, Kannur, Dr.Srinivasan.V, Dr.Hamsa.S Senior scientists and Sangith K.P Research Scholar Dept. of soil science, Spices research institute, Calicut for their help in physicochemical analysis of samples.

I duly acknowledge the help received from Dr.C.Kunhikannan, Dr.S.Murugesan and
P. Manivachakam, Dept. of Phytochemistry, IFGTB, Coimbatore for providing HPLC facility at nominal expense.

I sincerely thank Mr.R.Murugesan, SSO.Grade 1 and R.Sankar, SAIF IIT, Chennai for their valuable assistance in GC-MS analysis of my samples.

It is an honor for me to thank Dr. Abdulhameed Sabu Lecturer, Kannur University for his help received during the research work.

I would like to thank Mr.K.Suresh, Lecturer, K.S.G College of arts and science, Coimbatore for his help in purification of the enzyme.

I owe my deepest gratitude to Dr.V.B.Hosagoudar, TBGRI, Trivandrum and Dr.P.M.Beebi Razeena for their help in the identification of fungi.

I wish to extend my profound appreciation and sincere thanks to Naveen Chandra.D Research scholar Department of Microbiology and Biotechnology Thalassery campus for his valuable support throughout the study.

I sincerely acknowledge Mr.Hamza.T.P, SRF, Amala Cancer Centre, Thrissur for the help received in accessing the journals.

My thanks are due to my fellow research scholars Dhanya Rajan, Deepamol P.C and Dr.Sreeja.P without whose co-operation and liveliness this investigation would not have gone smoothly. Also I would like to acknowledge my friends Aravind.S.R, SRF, Regional Cancer Centre, Trivandrum, Fasil.S.M Research and development officer, Jayakuik Sdn Bhd, Sabah, Malaysia and Ajay Krishnan for all related help and encouragement regarding the thesis work. I am highly thankful to them personally whose help came in handy way whenever I was in need.

I acknowledge the help received from Miss. Jeeshna.M.V, research scholar, Konkanadu arts and Science College, Coimbatore for my accommodation at Coimbatore and all related help regarding the HPLC analysis.
As with all things that I have accomplished, I thank God above all others for continuously blessing my life and giving me the strength to preserve during had times. One of the greatest blessings he has given me is my family. Without the love and support that my father Narayanan.V.V and mother Geetha Narayanan and sister Nageena.V.V have provided throughout the course of study I couldn’t have completed this endeavour.

Gilna.V.V
