ACNOWLEDGEMENTS

Words cannot fathom the depth of gratitude, I owe to Dr (Miss) H. J. Chinoy, my Research Guide and Reader in Zoology, Department of Zoology, School of Sciences, Gujarat University, Ahmedabad, for introducing me to the field of Reproductive Physiology and rendering her valuable time and knowledge throughout the tenure of my doctoral studies.

I am extremely thankful to Dr. V.G. Shan, Professor and Head, Zoology Department for providing all the necessary facilities for carrying out this piece of research work. Thanks are also due to Dr. H.S. Dubale, Dr. U.M. Naval and Dr. H.V. Rao of this Department for their help and cooperation throughout this investigation.

My special thanks are due to Dr. L. Seethalakshmi, Asst. Professor, Worcester Foundation for Experimental Biology, Massachusetts, U.S.A., for the immense help and guidance she has rendered during the initial stages of this research period.

My sincere thanks are due to Dr. T.C. Anand Kumar, Director, Institute for Research in Reproduction (IRR), Parel, Bombay for kindly allowing me to undergo RIA training at IRR. Thanks are also due to Dr. A.K. Sheth, Dr. Usha Joshi, Dr. V. Toddywalla, Mr. I.H. Kalekar, Miss. Rachel Joseph and Dr (Miss) Romy Joy of Steroid and
Protein Hormone Laboratories of IRR, Bombay for their timely help and guidance in carrying out Radioimmunoassay analysis during my training period.

I am very grateful to Dr. P. Neelakantan, Assistant Director, and Mr. P.J. Bose of Ahmedabad Textile Industries Research Association (ATIRA), Ahmedabad, as well as Dr. Goswami and Mr. V.G. Shah of Physical Research Laboratory (PRL), Ahmedabad for their wholehearted cooperation in carrying out Scanning Electron Microscopic (SEM) studies in their Institutes.

The award of Junior and Senior Research Fellowship from the University Grants Commission (UGC), New Delhi for a period of four years is gratefully acknowledged. A part of this work has also been supported by Research Grants from Indian Council of Medical Research (ICMR), New Delhi.

I also wish to thank my husband and all other family members for their whole-hearted cooperation and encouragement without which this work would not have been completed.

Lastly, I wish to extend my thanks to all my colleagues in this Department for cooperating with me to successfully complete this research work. I also thank Mr. Somabhai Dholakia of Zoology Department and Mr. Hodibhai of Botany Department, Gujarat University for their help in photography work and in typing this manuscript.
