Acknowledgement

Coming to the end of the work, it gives me earnest pleasure to express my gratitude to all those who have made this thesis a reality and I will always be indebted to all of them. I deem it an honour to acknowledge my beloved teacher and guide Prof. (Mrs.) Shobhana K. Menon, Head, Department of Chemistry, Director, school of sciences, Gujarat University. But for her keen interest, guidance, invaluable criticism, fruitful discussion and constant encouragement during the entire phase of this investigation, the work would not have taken the present shape.

It is my pleasure to acknowledge Prof. U.C Pande, Ex Head, Department of Chemistry, Gujarat University for his cooperation, support and help.

I am also grateful to Dr. V. K. Jain, Dr. Usha Pal, Dr. Harjinder Kaur and all teaching and non teaching staff of chemistry Department for their advice, support and kind cooperation through out my work.

I greatly acknowledge CDRI, Lucknow and CSMCRI, Bhavnagar for providing spectral data. I also extend my thanks to Inflibnet for rendering me excellent library facilities.

It gives me earnest pleasure to acknowledge my colleagues Anish Kumar, Gaurang Patel, Nishith Modi, Saurabh Patel for their help during last three years. And I would also like to thank Chaitanya Kumar Jha research student Department of Microbiology for his help through out my work.
Last but not least, I would like to recognize the invaluable concern, support, encouragement and prayers of my parents, other family members and friends.

I thank almighty GOD for showering this merciful blessing on me.

BHARGAV PATEL
