On this page are some exercises in matching figures that are exactly the same in size and shape.

Look at figure 1 in the upper box.

Now look at figure B in the lower box.

Figure B is exactly like figure 1. Look at the part of the answer sheet that says Part 7 Practice. Notice that in the row for practice exercise 1, the space under letter B has been filled in.

Look at figure 2 in the upper box.

Figure G in the lower box is exactly like figure 2. Therefore, in the row for practice exercise 2, the space under letter G has been filled in. Notice that there are ten answer spaces to choose from for this exercise. These ten spaces are divided into two groups of five each. In this exercise the correct answer, G, is found in the seventh position which is in the second group of answer spaces.

Now do the rest of the exercises in the same way. Find the lettered figure exactly like the numbered figure and fill in the space under that letter on the answer sheet. For each exercise, choose the correct one of the ten spaces to indicate your answer. Do not write in this booklet.

Do not turn this page until you are told to do so.

On the following pages are more exercises like this. Remember to choose one of the ten spaces to indicate your answer to each exercise. For each numbered figure find the lettered figure that is exactly the same as the numbered figure. Then blacken the space on the answer sheet under the letter or letters of that figure. Make no marks in this booklet. Make heavy black marks on the answer sheet. Work as fast as you can without making mistakes. You will be allowed 6 minutes.
