I am greatly indebted to Dr. S.K. Chatterjee, Director, National Institute of Occupational Health, for initiating me to do this investigation, giving me valuable guidance and regular supervision in preparing this study, and also made available all the required facilities. It was mainly due to his constant encouragement and constructive suggestions that this study could be successfully completed.

I am grateful to Dr. S.K. Kashyap, Deputy Director, National Institute of Occupational Health and Dr. J.K. Ramanathan, Director (R.P.), Department of Environment, New Delhi for their keen interest and constant inspiration in this study.

I have no words to express my gratitude to Sri F.K. Kulkarni, incharge of Statistics Division, who was kind enough to spare his time in statistical analysis of data and also for going through the manuscript critically.

I gratefully acknowledge to Dr. S.K. Dave, Dr. J.S. Parihar, Dr. M.N. Saiyed and Dr. A.K. Parshit of Occupational Medicine Division for medical examination of the workers in this investigation.
My sincere thanks to Dr. D.J. Parikh, Sri H.R. Ghodasara and other staff members of Industrial Hygiene Division and Dr. S.K. Ghosh, Miss V.L. Gokani and other staff members of Agricultural Health Unit for environmental monitoring in this investigation.

My thanks are also due to Sri B.A. Patel of Respiratory Physiology Unit, Sri V.C. Patel of Statistics Division, Sri G.C. Patel of Occupational Medicine Division, Sri Anand, Artist and Sri C.M. Rawal, Librarian for their very kind cooperation.

My thanks are also due to Sri B.A. Shah for excellent typing out the whole thesis.

In the end all the workers of this study and their management deserve a special thanks for their cooperation for the successful completion of this study.
