Acknowledgement

With utmost sincerity, I express my deep sense of gratitude to my guide Dr. (Mrs.) Anjana Desai, who has been a constant source of inspiration since the inception of the study, invaluable guidance and affectionate advice during my research work.

I am extremely grateful to the Municipal Commissioner's office and Health Department of Municipal Corporation of Ahmedabad, the authorities of Census of India and Gujarat Town Planning, who helped me in procuring the relevant data, maps and reports from their respective organisations.

I highly appreciate the help rendered by Shri T.N.C. Ramaprasad and Mr. Shah of the Central Laboratory of Ahmedabad Municipal Corporation. I am highly indebted to the dean, nurses and staff members of statistical department of the V.S. Hospital, Shardaben Hospital, L.G. Hospital and Infective Diseases Hospital for providing me patients' records.

I would like to place on record my appreciation to Mr. Prabhat Desai, Sonal, Mr. Adhrvu for the invaluable help rendered to me in obtaining data.

I am immensely thankful to Mr.C.I. Augustien and Mr. Chetan Panchal for accurate, systematic, neat and steady computer typing work, otherwise it would have been difficult to submit this thesis in time.

I feel obliged to the residents of the study area who have willingly
co-operated with me and have provided me the data on environment and personal information. I am also grateful to V.D. Thakker and Rajesh Mehta for consultation on computer programming.

I am also grateful to all the staff members of Geography Department and my numerous other well-wishers, who helped me in several ways.

I would like to take this opportunity to express my personal indebtedness to my father who has played so decisive a role in my interests and education.

Last but not the least, this work would not have been completed without the encouragement of my husband Dr. Kanu Prajapati and my kids for standing besides me during this most crucial period, which should not be taken for granted.
