I am highly indebted to Dr. (Mrs.) Anjana P. Desai for her invaluable guidance, inspiration and affectionate advice during my research work. I am thankful to Dr. M.C. Jaiswal of the Department of Statistics of Gujarat University who has willingly helped me in the application of some of the statistical techniques. My thanks to Dr. N.J. Chinay of Zoology Department of Gujarat University for many practical suggestions. I am grateful to the authorities of Census of India, Ahmedabad circle; Gujarat Town Planning and Valuation Department; Ahmedabad Urban Development Authority; Ahmedabad Municipal Transport Service; Land Survey Office; Taluka Development Officer's Office; Ahmedabad District Collector's Office; Village Panchayat Offices; who helped me in procuring the relevant data, maps and reports from their respective organisations.

I wish to express my thanks to the authorities of Indian Institute of Management, Ahmedabad Gujarat Vidyapith; Sardar Patel Institute of Social and Economic Research; School of Planning, M.S. University, Baroda; who helped me by allowing me to use their libraries for references. I feel obliged to the officials and residents of the study area who have willingly co-operated with me and have provided me with data on village and personal information. I am also grateful to Dr. P.S. Desai for consultation on computer programming.

My sincere thanks are due to Shri A.K. Mitra, Cartographer, who took efforts to draw maps of my thesis in a short time. I am also immensely thankful to Mr. C.S. Ramamurthi but for whose accurate, systematic, neat and steady typing work it would have been difficult to submit this thesis in time.

I am also grateful to all the staff members and students of Geography Department. I am very much thankful to Mrs. Harsha
C. Shukla and Mr. Bhupendra Patel of the Department of Geography, Gujarat University and my numerous other well-wishers, who helped me in several ways, whenever I needed.

Finally, I am grateful to the University Grants Commission for awarding me the Junior Research Fellowship in April 1983 which enabled me to bear my expenses in research work. Last but not the least, this work could not have been completed without the encouragement of my family, which should not be taken for granted.

Smita Sengupta
Department of Geography
Gujarat University
Ahmedabad 380 009
