ACKNOWLEDGEMENT.

I have no words to express my gratefulness to Dr. M. N. Jindal, M.D., Professor of Pharmacology, B. J. Medical College, Ahmedabad, under whose able guidance, I have been carrying out this work. He has given such a masterly guidance from time to time without which it would not have been possible for me to bring out this work in its present form. His constant encouragement, scientific exactness and useful criticism have been mainly instrumental in overcoming manifold difficulties which confronted me in the present work.

Thanks are due to Dr. J. J. Trivedi, Ph.D., and Miss S. L. Dalal, M.Sc. of Chemistry Department, M.G. Science Institute, Ahmedabad, for synthezising the compounds.

I am thankful to Dr. J. N. Patel, M.D. and other colleagues of this department and college for their kind help from time to time.

I am also thankful to Dr. E. B. L. Mathur, M.D., Professor of Pathology, for his valuable help in the histopathological work and giving me all facilities in his department.
Acknowledgements are due to Mr. D.S. Sewak, M.Sc. for assistance with the statistical analysis.

I shall be failing in my duty if I do not mention the name of Mr. Raymond John and other laboratory staff members who helped me a great deal during the course of this study.

I am grateful to Dr. E.M. Best, M.D., Dean, B.J. Medical College, Ahmedabad for giving me all facilities for carrying out this work.
