ACKNOWLEDGEMENT

Man is a social animal and all his achievements are the cooperative actions of many well wishers. It is a matter of immense pleasure and proud privilege to me to express my heartfelt gratitude to all those personality who have been helping me in diversified ways.

This Doctoral research work was my humble effort to give some contribution in the field of Biotechnology which could not have been possible without inspiring guidance of my mentor, Prof. S. P. Singh, Head, Department of Biosciences, Saurashtra University, Rajkot, Gujarat, India. I am thankful for his valuable guidance, creative ideas, thoughtful discussions and untiring supervision assisted to shape up my research to the existing element. He gently but firmly led to me along the difficult path of rectitude, his guidance denotes to the high spots of excellence. I am and shall ever remain very grateful for his warm affection that he has showered upon me at all the time. He was always more than a Guide; a make-feel-home friend who make the rough road easy walking.

I express my gratitude to Prof. V. C. Soni, Prof. A. N. Pandey, Prof. V. S. Thaker, Dr. R. Kundu, Dr. S.V. Chanda, Dr. B.R.M. Vyas, Dr. N. Panchal, Ms. V. M. Trivedi and Ms. J. Patel for their valuable instruction and suggestion pertaining to my work.

I am thankful to Dr. Sanjay Kapoor, University of Delhi-South Campus, New Delhi, India for the exposure and training related to my research work. I also acknowledge valuable discussions with Prof. S. K. Khare, Indian Institute of Technology, New Delhi, India. I am thankful to Council of Scientific and Industrial Research, New Delhi, India (CSIR, New Delhi) for awarding me Senior Research Fellowship (SRF).
I thank all the non teaching staff members of our Department, Dr. S. Bhatt, Mr. R. Purohit, Mr. P. C. Pandya, Mr. Joshi, Mr. R. Solanki and others for the support they provided during my work.

I am thankful to Kailash bhai, Chandresh bhai, Nitesh bhai, Raju Bhai, Vaghela bhai and others for extending their help for all their jobs.

I express my sincere gratitude to my colleagues; Mr. Chirantan Raval, Mr. Sandeep Pandey, Mr. Himanshu Bhimani, Ms. Sangeeta Gohel, Ms. Viral Akabari, Mr. Vikram Rawal, Mr. Bhavtosh Kikani, Mr. Rushit Shukla, Ms. Sejal Patel, Ms. Rupal Pandya, Ms. Mansi Khokhra and Ms. Prinsa Siddhpura for their humble support.

I cherish the love, affection rendered by my friends and all M.Sc. Biotechnology and Microbiology students since 2006 for their constant support. I would always bare a fruits of being a part of Biotechnology programme at Department of Biosciences.

From the deep within, I acknowledge my family. No word would suffice to express my gratitude to my dearest parents for their cherished devotion, inspiration, care and blessing. I thank my husband, Paresh who always encouraged me during the time of disappointment with his love and support. The words of thanks are not enough to express my feelings for his support. Thanks to Mummy², Papa², Uncle, Aunty, Badal, Girish, Chandan, Urja, Mira and all my cousins and family members for their affection and moral support, without which the work would not have been completed. I assure them to be worthy of whatever they have done for me. I humbly bow down to almighty God for making me capable of carrying out this research tasks.

Megha Purohit
