Acknowledgement

First and foremost, I am obliged to the ‘almighty’ for the blessings to pursue my research in the right earnest.

This accomplishment of mine would be the meaningless if I couldn't share it with my dear and loved ones, for I look upon them on the highest pedestal in my intellectual journey.

I also wholeheartedly wish to express my greatest admiration for my Dear sister Ms. Nisha Gopinath, whose editorial talents and valuable support in reviewing the drafts gave me the extra time to concentrate on other facets of study. I further also extend my appreciation to my brother-in-law Mr. Pradeep Kumar for his selfless love and support.

Finally I would like to place on record my gratitude and acknowledge the endless love and support of my parents. My father, for his forbearance in adversity, that has helped me wade over high tides effortlessly. My Mother for her sacrifices and boundless efforts in nurturing me, who always unconditionally supported me to keep on going with my undying passion for research.

I wish to extend this degree as my humble tribute to the warmth, love and enduring care extended by my family during every phase of my life, for they were instrumental in my personal and professional growth.
This thesis owes its very existence to the active role of several individuals. Without their mention, the satisfaction and euphoria accompanying the successful completion of this research would be hence meaningless.

First and foremost, I wish to extend my sincere gratitude to my beloved guide, Dr. Vijayalakshmi Akella (Professor and Head, Department of Civil Engineering, K.S.S.E.M., Bangalore). Her continued support and motivation in structuring the project and achieving this milestone has been most remarkable. I shall always be indebted to her for sculpting me as a good researcher.

I also owe a profound gratitude to my guide Dr. P. R. Bhanumurthy (Director of Evaluation, J.N.T.U.A., Ananthapuramu) for his constant encouragement and humility. His considerate, patient and thoughtful working style has always humbled me. I am extraordinarily blessed and fortunate to have him as my co-guide.

My warm regards are also to Jawaharlal Nehru Technological University (JNTUA, Ananthapuramu) for permitting me to pursue the research under their Ph.D. program.

I as well extend my sincere gratitude to Visvesvaraya Technological University (VTU, Belgaum) for sponsoring this research under Research Grants Scheme with a sum of INR 9.03 Lakhs.

I am also grateful to Dr. H. D. Maheshappa (Principal, Acharya Institute of Technology (A.I.T.) Bangalore) for the formidable support extended in carrying out my research smoothly.

I am profoundly grateful to Dr. L. G. Aswathnarayana (Director, Space Geo Tech. Pvt. Ltd., Bangalore) for assisting me with the requisite Remote Sensing Data from National Remote Sensing Agency (N.R.S.A., Hyderabad).
I also wish to thank Dr. K. M. Manjunatha (Department of Statistics, Bangalore University) for his statistical incite, which allowed me to address Multivariate Data Analysis with confidence. Prof. B. G. Savitha (Assistant Professor, Department of Civil Engineering, K.S.S.E.M.) and Er. Sampath Kumar (A.I.M.I.L., Bangalore) are also wholeheartedly appreciated for enabling me with operation of Handheld G.P.S.

I also wish to extend my sincere thanks to Prof. Vrinda T. (Department of Civil Engineering, A.I.T., Bangalore), Ar. Anjana Biradar, Ar. Fathima Samana S., Ar. Shilpa M. Prabhu and Ar. Shwetha J. (N.R.V.S.A., Bangalore), for providing valuable inputs, while preparing the Master plan and its 3-d features.

I also wish to convey my gratitude to Dr. S. M. Shivanagendra (Indian Institute of Technology Madras, Chennai), Dr. Harish R. Bhat (Scientist, Centre for Ecological Science, Indian Institute of Science, Bangalore), Dr. T. V. Ramachandra (Professor and Head, Centre for Ecological Science, Indian Institute of Science, Bangalore), Dr. H. S. Dayananda (Professor and Head, Department of Civil & Environmental Engineering, V.V.C.E., Mysore), Dr. Kirti Malhotra (Department of Civil Engineering, M.S.R.I.T., Bangalore), Ms. Bhooma Sadagopan (K.V.H., Bangalore), Prof. Varuna M., (Department of Civil Engineering, R.V.C.E., Bangalore) and Prof. Yateen Lokesh (Department of Civil Engineering, A.I.T., Bangalore). I am deeply grateful to them for their direct and indirect support rendered.

My special thanks is also reserved to Dr. P. Siva Kota Reddy (Associate Professor, Dept. of Mathematics, S.I.T., Tumkur) for providing me access to an International Database for Literature Survey.

I am also pleased to extend my sincere gratitude to ‘Lawrence and Mayo Pvt. Ltd.’ (Bangalore), for equipping me with the Data Logger-Sensors. I appreciate the efforts of ‘Spectrum Technologies Inc., (U.S.A.), for providing me with the technical support.
I also thank Mr. Raghavan and his workforce, for fabricating the Radiation shield as per my requisite design

I am profoundly grateful to the families of Prof. Malleshiah, Er. Rajan, Er. Nitesh, Er. Pooja, Prof. A.G. Pole, Er. Umesh, Er. Subash, Er. Sreekanth, Er. Raji, Er. Ramakrishna and Er. Yatish, for permitting me to fix the radiation shield at their premises.

I take immense pleasure in thanking all my friends and volunteers for their valuable assistance during the preliminary fieldwork and innumerable surveys. I am at a loss of words for their camaraderie.

Many individuals have supported me and helped make this research a reality. If any names have been missed out accidentally, with a sincere apology, I admit that their help shall always remain embodied in my heart and memory alike.

Rajesh Gopinath
