ACKNOWLEDGEMENTS

I wish to extend my deep sense of gratitude to Dr. P. L. Sharma, Professor and Head, Department of Mathematics, University of Saugar, Sagar, M.P., for his valuable guidance throughout the present study and whose unfailing encouragements transcends all attempts at evaluation.

Apart from introduction, the entire work is divided into four chapters. Three papers from these chapters are already communicated for publication.

My thanks are due to Prof. V. Chandrasekhar, Principal, M.I.T., Manipal, Karnataka and to Prof. I. Achutha Rao, Professor and Head, Dept. of Mathematics, M.I.T., Manipal, for their constant encouragement and help.

I take this opportunity to express my deep sense of gratitude to Professors K. Iseki, Albert White, and Charles Eaminie, for their help and valuable suggestions. I am greatly indebted to Prof. Gähler, the founder of 2-space theory, who has kindly helped me by sending reprints and giving suggestions from time to time through correspondence.
I am deeply indebted to all my friends of Sagar University, especially to Dr. R. K. Sharma, Asstt. Professor, Mathematics Department, Tavishanker University, Raipur, and to Dr. T.G.S. Moorthy, Associate Professor, Department of Electronics and Communication, M.I.T., Anipal for their co-operation.

Finally, I would like to offer my heartfelt thanks to Mr. L.P. Choubey for his excellent typing of this manuscript.
