Acknowledgements

I express my sincere and heartfelt gratitude to my Ph.D. Supervisor Dr. Md. Anwar Hussain, Professor of Electronics and Communication Engineering, NERIST for his constant supervision, encouragement, valuable suggestion and timely help during the course of this work. It has been a great pleasure for me to work under his guidance. Without his help, it would not have been possible for me to complete this work.

I am grateful to Dr. Madhusudhan Mishra, HOD and all the Faculty Members of the Department of Electronics and Communication Engineering, NERIST for their good wishes and various help during my course of work. I am also grateful to the HOD of Electrical Engineering, NERIST and HOD of Computer Science and Engineering, NERIST for providing me the necessary support and advice in my semester presentations during the course of this work.

I take this opportunity to thank Dr. Sarsing Gao, Department of Electrical Engineering, NERIST, for his valuable suggestions, logical questionings and the core interest on the topic which made me ruminate during my research work. My gratitude and thanks to Dr. Themrichon Tuithung, Department of Computer Science and Engineering, NERIST, for her guidance, inspiration and co-operation throughout.

I would like to convey my best regards to Dr. Mohammad V. Malakooti, Faculty and Head of Department of Computer Engineering, Islamic Azad University, UAE Branch, Dubai. Dr. Dayang Nurfatimah Awang Iskandar, Faculty of Computer Science and Information Technology, Universiti Malaysia
Sarawak, Kota Samarahan Sarawak Malaysia. Dr B. P. Sinha, Advance Computing and Microelectronics Unit, Indian Statistical Institute (ISI), Kolkata. Dr. Surajit Bagchi, Department of AEIE, Heritage Institute of Technology, Kolkata, and Prof. Alex Mason, Reader in Smart Technologies at Liverpool John Moores University, UK, for their concern, queries and well-thought suggestions which gave a new dimension to my research work.

My gratitude and thanks to the Dean Academic, Prof. R. M. Pant for his valuable advice, kind consideration and co-operation during my research work.

I also extend my most sincere thanks to my colleagues in the Department of ECE and Department of CSE, NERIST for providing me a pleasant environment to work and for useful discussions. I am grateful to all the staff and officials of NERIST in general and Department of ECE in particular for facilitating and being very co-operative throughout.

I am indebted to my husband, Md. Razibuddin Ahmed for his continuous encouragement that has enabled me to progress my research work at NERIST upto 5 years until the completion of this Ph.D. thesis. I most profusely thank my daughter, Binthia and son, Tanveer for bearing with me and supporting me in all possible manners. I also thank all others in my family and my friends whose best wishes and blessings have always been with me and was a constant source of motivation for completing my Ph.D. Thesis.
Abba,

Your guiding hand on my shoulder will remain with me, 

forever.
