APPENDIX

A Format for obtaining experts' opinion .................................................. 132
B Statistics of item analysis of 93 items .................................................. 133
C Final Form of the test .............................................................................. 138
D Scoring Key ............................................................................................... 146
E Instructions for administration .................................................................. 151
F List of schools from which the standardization sample is drawn .............. 165
G-1 Fitting normal distribution to the distribution of scores of grade III ........ 167
G-2 Fitting normal distribution to the distribution of scores of grade IV ........ 168
G-3 Fitting normal distribution to the distribution of scores of grade V ........ 169
G-4 Fitting normal distribution to the distribution of scores of grade VI ......... 170
G-5 Fitting normal distribution to the distribution of scores of grade VII ...... 171
G-6 Fitting normal distribution to the distribution of scores of all the grades combined ............................................................................... 172
H Correlation Matrix ..................................................................................... 173
I Correlation Coefficients for each variable listed in order of size ................. 174
J Worksheet and Solution for B-Coefficients in Cluster Analysis ................. 175
K-1 Distribution of test-wise and grade-wise scores for test I ......................... 176
K-2 Distribution of test-wise and grade-wise scores for test II ...................... 177
K-3 Distribution of test-wise and grade-wise scores for test III .................... 178
K-4 Distribution of test-wise and grade-wise scores for test IV .................... 179
K-5 Distribution of test-wise and grade-wise scores for test V 180
K-6 Distribution of test-wise and grade-wise scores for test VI 181
K-7 Distribution of test-wise and grade-wise scores for test VII 182
L Mathematical formulae used 184
