Acknowledgement

The author expresses his deep gratitude and indebtedness to Dr. S. B. Sharma, Outstanding Scientist and Deputy Director, Antenna Systems Area, Space Applications Center, Ahmedabad for his constant encouragement and able guidance throughout the period of this work. It is only due to his keen interest, valuable suggestions, comments and motivation, the author could complete this work.

I am highly indebted to Dr. S. B. Chakrabarty, Head, Microwave Sensors Antenna Division, Antenna Systems Area, Space Applications Center (SAC) for his continuing interaction, excellent comments and suggestions during the course of this research work and during the writing of the thesis. He has helped much more than a co-guide.

My sincere thanks are due to the former directors, SAC, Dr. K. N. Shankara, Dr. A. K. S. Gopalan and the present Director Dr. R. R. Navalagund for permitting me to work for my Ph. D. thesis and extending support in terms of excellent facilities and infrastructure of the center.

Special thanks are due to Sanjeev Kulshrestha, Ranajit Dey, Anil Solanki, B. K. Pandey, Ilia Agnihotri, Devendra Sharma, Gaurav Upadhyay, C. Sri Harsha, Mohit Khanna, A. K. Pandey, Shobha Ben and all other colleagues and seniors at MSAD/ASA, SAC, Ahmedabad and Prof. Dhaval Pujara of Nirma University, Ahmedabad for providing necessary technical support during the course of work.

Thanks are due to V. F. Pariyal, Samir Sakhre and N. H. Kinariwala for providing support for mechanical drawing generation and hardware development. Special thanks are due to R. K. Malaviya, R. M. Makwana, K. P. Bhalsod, K. P. Raja, V. R. Seth and H. S. Solanki of AMD/ASA, SAC, for providing necessary support for measurement. I thank Y. H. Trivedi, A.C. Mathur, SAC, Ahmedabad and D Sam Dayala Dev, IISU, Trivandrum for providing necessary support in mechanical design and integration. My sincere thanks to Rajeev Jyoti, Head SCAD, K. K. Sood, M.B. Mahajan and Dr. B. S. Munjal of SAC for their valuable inputs and for boosting my enthusiasm for the work.

Last but not the least, I am personally indebted to my teachers, my grand father, my parents, my brothers- Ambika and Santosh, sisters-Sangeeta and Reeta, wife Pratima, daughter Shubham, son Utkarsh and all other near and dear for all kinds of support which gave me enough strength to complete this challenging assignment. Their remains the pleasant task of acknowledging indebtedness to all those who have directly or indirectly rendered their help during this work.
