ACKNOWLEDGEMENT

In this thesis of mine what I represent is my dedication, my quest and will, be an assert throughout my life. To make this entire thing a reality got the much needed support of many people.

This acknowledgement is a humble attempt to earnestly thank all those who are directly or indirectly involved in the Ph. D. project and were of immense help to me.

I find my self lacking in words to extend my profound sense of respect and deepest gratitude to my guide Dr. Nita H. Shah, under whose valuable guidance I had the privilege to work. Her extensive knowledge, unfailing optimism and easy nature have made this presentation an exciting and enjoyable experience, which will definitely shape my future.

I would like to thank Dr. N. R. Ladhawala (Formar H.O.D., Mathematics department, Gujarat University) and also to Dr. A. K. Desai (H.O.D., Mathematics department, Gujarat University) for providing me necessary facilities during my work.

I am also thankful to each and every one at JG College of Computer Applications – JGBCA, especially to the Director, Shri. Saurabh C. Choksi, for his continuous support and help for being instrumental for this work.

I heartily thank my friends and my colleagues, specially Mr. Deepal Shah and Ms. Mona Shah for their continuous inspiration, concern and co – operation.
I am enormously content to put on record, the numerous forms of support and encouragement provided during the course of this work, by my mother Mrs. Harshidaben, my father Mr. Tarunkumar, my wife Niketa; and all my family members, for their direct and indirect contribution, moral support and encouragement without which this dissertation would not have been in the shape in which it is.

Thank you all,

KUNAL TARUNKUMAR SHUKLA
