Acknowledgements

It is with immense sense of gratitude and deep respect that I thank my guide and mentor Dr. C. J. Shishoo, B. Pharm., M. S. (Iowa), Ph. D., Visiting Professor, (Formerly Principal and Head) Dept. of Pharmaceutical Chemistry, L. M. College of Pharmacy, Ahmedabad, without whose constant encouragement, constructive criticism, unending enthusiasm and ever-helping nature, this work would not have evolved in the present form. He has been my guide in all respects.

I wholeheartedly thank Council of Scientific and Industrial Research, New Delhi, India, for providing an invaluable financial assistance in the form of Research Associateship which helped me to perform the work in detail. At the same time I am also grateful to G. L. Shah Endowment Fund, L. M. College of Pharmacy, for the partial financial help during the initial phase of my Ph. D. work.

I am thankful to Dr. M. C. Gohel, Professor & Head, Dept. of Pharmaceutics and Pharmaceutical Technology and Principal, L. M. College of Pharmacy, for providing the essential infrastructure, extending the facilities to complete this work and for his timely help.

I also express my sincere thanks to Dr. S. A. Shah, Professor and Head, and Mr. I. S. Rathod, Assistant Professor, Department of Quality Assurance, L. M. College of Pharmacy, for their very friendly gesture and the faith shown in me. I am thankful to them for their unending help, highly constructive dispositions, moral support and enormous encouragement during the entire tenure of my work.

Special thanks are due Dr. M. T. Chhabria, Assistant Professor, Department of Pharmaceutical Chemistry (PG), L. M. College of Pharmacy, for his selfless help in all aspects.

I thank Dr. B. N. Suhagia, Head and Assistant Professor, Department of Pharmaceutical Chemistry, and Dr. G. K. Jani, Department, of Pharmaceutics and Pharmaceutical Technology, L. M. College of Pharmacy, who were always there to help
me, as and when required. I also thank Bhalara sir, Maya madam, S. D. Patel sir, Thakore sir, Department of Pharmaceutical Chemistry, L. M. College of Pharmacy.

I am grateful to Dr. D. D. Santani, Professor and Head, Dr. R. K. Goyal, Professor, Dept. of Pharmacology, L. M. College of Pharmacy, Dr. M. P. Bhatt, M. O., Gujarat University Health Centre, Ahmedabad, and Dr. A. A. Mehta, Consulting Physician, for their timely help in conducting the in vivo bioavailability studies.

The friendly gesture, appreciations and help extended by all staff members at L. M. College of Pharmacy is duly acknowledged. It was also very memorable interacting with Shahbhi and Patel, Laboratory Assistants, Bhaiyaji, Raju, Pravin and Prakash.

With due respect I wholeheartedly thank Dr. C. Dutt, Mr. S. K. Vyas, Dr. Lalit Vaya and Mr. V. K. Gupta from Torrent Research Centre, Gandhinagar, for their help during the course of this work.

Mr. A. K. Dasgupta and Dr. Srivatsan, Lambda Therapeutic Research Ltd., Ahmedabad, helped me in learning different aspects of pharmacokinetic studies. I am very much thankful to them for allowing me to use WinNonlin-Pro™ software for pharmacokinetic calculations and Mr. Kalpesh Patel for practical help in analyzing the pharmacokinetic data. I am also grateful to Dr. Milan Satia, Cadila Pharmaceuticals Ltd., Dholka, for sparing his valuable time to help me with some of the pharmacokinetic calculations.

I thank Mr. P. K. Mukherjee, Consumer Education and Research Centre, Ahmedabad, for his constant involvement in the work and curious guidance in the statistical analysis of the data.

I extend my sincere thanks to the Library staff members of L. M. College of Pharmacy (Sanjay, Ashwin, Bharat, Joshi, Madhu), B. V. Patel PERD Centre, Ahmedabad; National Institute of Pharmaceutical Education and Research, Mohali; Cadila Pharmaceuticals Ltd., Dholka; Torrent Research Centre, Gandhinagar; Zydus Research Centre, Moraiya, for their co-operation during the reference work.
Jignesh, Ashok, Malay, Kaushal and Sheetal deserve a special mention for their sincere involvement, keen interest and hard work put in to explore various aspects associated with the research on anti-tubercular formulations.

Timely and invaluable help from several friends at TRC, ZRC, Cadila Pharmaceuticals Ltd., Novartis Enterprises, Quintiles Spectral, B. V. Patel PERD Centre, deserve a special gratitude.

Friends like Vikas, Sonali, Kiran, Chandan, Amita, Sampada, Nidhi, Atul, Sanjay, Senthilkumar, Urvish, Setu, George, Anookh, and Gopal have always been inspiring to excel. I specially thank Dhananjay and Rinku for the care and encouragement extended during crucial part of the work. It would not have been possible to complete the thesis within time without the timely help by Dhananjay and Santosh. I also whole heartedly thank Krishnamurthy, Santosh, Priti, Maulik and Navin.

Nitin, Jitesh, Shailesh and other friends in NIPER, Ravishankara and Ajay, Seema, Ramya, Parag have been a great support and kept the environment friendly. Jignesh (B), Jitendra, Jignesh (A), Hiren, Rasik, Harshit and Sunil volunteered to help me in the in vivo bioavailability studies and I am very thankful to them.

The affection and attachment from Shishoo family, especially Shishoo madam, made me experience 'home-away-from-home'. I owe a lot to them.

Words just can not express the sense of gratitude towards Aai, Anna, Hema, Shyamdada, Kishoriwahini, all Savales, Kulkarnis and Mummy and Daddy. They have always been with me in all my highs and lows and have been very supporting and encouraging to help me excel in all my endeavors. I am deeply touched with their moral support, understanding and bearing with me through out the course of my Ph. D.

I take this opportunity to thank Prof. Jennifer Dressman, Dr. David Bain, Dr. U. Banakar, Prof. Makoid, and Dr. V. P. Shah for their meticulous guidance and timely help.
