Acknowledgements

This work is the result of a long journey in which I have received support from many individuals. I extend my sincere gratitude to all of them. I would like to thank my Supervisor Dr. (Mrs) Vikoleno Rino for her continuous support and encouragement during this study. Her valuable suggestions, advice and time are deeply appreciated.

I am extremely grateful to my Co-Supervisor Prof. Glenn T. Thong for his generosity. All through this work he provided support and guidance and was always ready to help whenever required. His able supervision and valuable time were integral to the timely completion of this study.

I would like to extend my heartfelt gratitude to Dy.D.G., GSI, NER, Shillong for permitting me to continue my PhD program.

The help of Dr. S.K. Patil of the Dr. KSKGR Lab (IIG), Allahabad is gratefully acknowledged for the paleomagnetic laboratory facilities and help in deciphering of data. Part of the analyses was carried out at the Paleomagnetic laboratory of Mizoram University. Prof. R.P. Tiwari is gratefully acknowledged for the facility.

I am extremely indebted to Mrs. Temjenrenla Pongen, Research Scholar, Department of Geology, Nagaland University for her constant assistance throughout the fieldwork and laboratory analysis.

I am very grateful to Dr. T. Walling, Asst. Professor, Department of Geology, Nagaland University who patiently assisted with much of the fieldwork and sampling.

I am deeply indebted to Dr. Supongtemjen Jamir, NGIS & RSC for all the assistance and encouragement rendered during the compilation of this work.

The Geochemical Division, NGRI is acknowledged for extending facilities for carrying out XRF and ICP-MS analyses.

Special thanks are due to Prof. R.A.S. Kushwaha, Department of Earth Sciences of the Manipur University for the microscope facility.

Thanks are due to Dr. (Mrs) Kanika Sanyal, Director, GSI, Agartala for the microscope facility and assistance in petrographic study of basalt samples. Prof. Jyotisankar Ray, Calcutta University and Mrs. S. Mukherjee, Sr. Geologist, GSI, Agartala are also thanked for assisting in petrographic study of the same.
I am indebted to Shri J.M. Umlong and Shri A. Elow, Geologists, GSI, Agartala for assisting in digitizing most of the geochemistry figures. Shri Omnath Saha, Geologist, GSI, Agartala is thanked for his constant encouragement.

This PhD program is part of a research project funded by the Department of Science & Technology, Govt. of India (ESS/16/249(4)/2005 dated 15.12.2006). I am extremely indebted for the support.

Special thanks to Mrs. Azonuo Thong for always being hospitable. It has always created conducive working environment. It is sincerely appreciated.

I warmheartedly acknowledge Ms. Cendy Ltr, who has been always beside me. Thanks for being so considerate and tolerant throughout this endeavor.

Heartfelt thanks to all my friends who helped me in one way or the other to complete this study. Due to space constraints, it is not possible to name them all.

I am extremely indebted to my parents and aunt for their endless and consistent effort to bring me this far. I fondly acknowledge the support of my brothers, sisters and other family members. All of them stayed by my side and showered me with their love, kindness and care which makes me extremely lucky.
