HPC, 1999. High-powered Committee on Disaster Management (1999) – A High Powered Committee (HPC) on disaster management was established in August 1999 to recommend an Institutional system for managing disasters. The committee studied the disaster management system globally and had a series of consultations with all stakeholders. Recommendations were made in 2001 which focused on the need for a holistic effort considering all disasters within a coordinated system of governance.
