# Contents

## CHAPTER I

**Design of the Study**

1.1 An Introduction to Social Capital  
1.2 Social Capital and Labour Markets  
1.3 A Brief Review of Literature  
1.4 Statement of Research Problem  
1.5 Research Questions  
1.6 Objectives of the Study  
1.7 Hypotheses  
1.8 Operational definitions and measures  
1.9 Research Design  
1.10 Chapter Scheme  
1.11 Significance of the Study  
1.12 Limitations of the Study

## CHAPTER II

**Social Capital and Labour Markets: Theoretical and Empirical Framework**

2.1 Job Search Theories and Models in Economics  
2.2 Social Capital Theories and Concepts  
2.3 Methodological and Conceptual Debates in Social Capital Literature
2.4 Empirical Studies on the Role of Social Capital in the Labour Markets  39
2.5 Operational Definitions and Empirical Measures in the Study  45

CHAPTER III

Overview of Information Technology Industry in India  49-69

3.1 Information Technology and Economic Development  49
3.2 Growth Phases of Information Technology Industry in India  52
3.3 Composition of Indian Information Technology Industry  54
3.4 Workforce in Indian Information Technology Industry  58
3.5 Nature of Software Work  61
3.6 Nature of Software Work in India  59
3.7 Characteristics of IT workforce in Indian Information Technology Industry  64
3.8 Hiring Practices in Information Technology Industry  67

CHAPTER IV

Social Capital and Methods of Job Finding  71-105

4.1 Descriptive statistics  72
4.2 Logistic Regression Model  93
   4.2.1 Reliability Test  94
   4.2.2 Test of Multicollinearity  94
   4.2.3 Data and Measures  96
   4.2.4 Binary Logistic Regression: Model specification and Results  97
4.3 Interpretation of Results  99
4.4 Summary of Chapter  104
CHAPTER V

Social Capital and Labour Market: Consequences for Earnings and Job satisfaction

5.1 Method of Job Finding and Earnings

5.1.1 Descriptive statistics- Annual Income and Independent variables

5.1.2 Ordinary Least Squares Regression (OLS): Model I

5.1.2a. Test of Multicollinearity

5.1.2b. Data and Measures of OLS Model I

5.1.2c. Ordinary Least Square Regression I: Model Specification and Results

5.1.3 Interpretation of Result: OLS Regression Model I

5.1.4 Descriptive statistics of annual income with strength of tie and occupational position of contact

5.1.5 OLS Regression Model II

5.1.5a. OLS Regression Model II: Data and Measures

5.1.5b. Test of Multicollinearity

5.1.5c. OLS Regression Equation II: Model specification

5.1.6 Results and Interpretation of OLS Model II

5.1.7 Descriptive statistics of annual income and tie strength

5.1.8 OLS Regression Model III

5.1.8a. OLS Regression Model III: Data and Measures

5.1.8b. Reliability test for items measuring strength of ties

5.1.8c. Test of Multicollinearity

5.1.8d. OLS Regression Equation III: Model Specification and Results
5.1.9 Results and interpretation of OLS Model III 131

5.2 Method of job finding and job satisfaction 132

5.2.1 Descriptive Statistics showing job satisfaction levels across independent variables 133

5.2.2 Binary Logistic Regression Model I 137

5.2.2a Data and Measures: Model I 137

5.2.2b Binary Logistic Regression Model I: Model specification and Results 138

5.2.3 Interpretation of Results of Binary Logistic Regression Model I 139

5.2.4 Descriptive statistics of strength of tie (source of contact) and job satisfaction 142

5.2.5 Data and Measures: Binary Logistic Regression Model II 143

5.2.6 Results and Interpretation of Binary Logistic Regression: Model II 144

5.2.7 Descriptive statistics of strength of tie (composite index) and job satisfaction 145

5.2.8 Data and Measures: Binary Logistic Regression Model III 146

5.2.9 Results and Interpretation: Simultaneous Logistic Regression Model III 146

5.3 Summary of Chapter 148

CHAPTER VI

Referral Hiring in IT Industry in Bangalore 151-159

6.1 Extent of referral hiring in IT companies 152

6.2 Reasons for referral hiring 152

6.3 Observations and interpretations 154

6.4 Perceived benefits of referral hiring and extent of referral hiring 158
CHAPTER VII

Summary and Conclusions 161-170

7.1 Findings and Implications 161
7.2 Suggestions for further research 169
7.3 General conclusions 169

Bibliography i-x
