Vivek and Tri-gunas are very important concept in Indian Philosophy. Oriental literature considers these two factors as fundamental to our personality. Samkhya Philosophy considers Tri-gunas as an integral part of our personality. Our behaviour is determined by characteristics of tri-gunas. Vivek also influences our decision making behaviour and tri-gunas do interact with wisdom orientation to influence our behaviour. My research work focuses on the effect of age, sex and tri-gunas on discriminating wisdom orientation (Vivek).

The present study is divided into six chapters. Chapter one is 'Introduction' which deals with conceptual clarification and tells about previous studies. Chapter two deals with objective of the study, specific problems and hypotheses. Chapter three deals with the methodology.

Chapter four tells about results. This chapter also discusses the results regarding orientations towards valence, attitude, belief of control and subjective norm and social concern.

Chapter five gives a brief derivation about discriminating wisdom orientations and tri-gun. Chapter six, the chapter summarizes the findings.

This study could be successfully done because of active cooperation of many people. I don't have words to express my gratitude to them. First of all I would like to thank my guide Dr. Bansh Gopal Singh, Reader, SOS in Psychology, Pt. Ravishankar Shukla University, Raipur. I owe him a debt of
gratitude because it was he, who guided me at each and every step with lots of patience. But for his immense knowledge and endurance I wouldn't have completed my work. I would also like to thank Prof. O.P. Verma, Dr. Shobha Nigam and Dr. B. Kameshwar Rao for their scholarly suggestions.

I would like to thank my friend Miss Ritu Tiwari, Miss Renu Tiwari, Miss Shubhra, Paikra, Mrs. Nishat Rahman and Mrs. Vani Patel who boosted my morale in each and every step.

I also owe a debt of gratitude to my Bhabhi Mrs. Kiran Sharma and Dr. Arvind Sharma who spared their valuable time and helped me in arranging data. Apart from valuable contribution of above mentioned people, I can not forget the contribution of Mr. T.C. Devangan, Mr. Rameshwar, Mr. Ajay and Maina Didi.

I don't have words to express my heartful gratitude to my parents Dr. A.N. Rao and Mrs. Mitakshara Rao and my Bhaiyya Manish Rao. But for their contribution, patience and blessing I wouldn't have completed my research work. Last but not the least I would like to thank Mr. Kshitijay Singh who did a neat and efficient job of typing.
