Acknowledgements

I convey my innermost sense of gratefulness and sincere thanks to Dr. Anil Chandhok, who walked along with me as my mentor in this research journey, by guiding, supporting, and sharing with me his philosophical knowledge and affection. The personality par excellence in the field of management research, his deep insight in the subject, motivated me to select this specific study. It was due to his straight efforts that I was able to formulate different aspects of the study and applied them for the data collection in a scientific way in order to attain the given results. It was for his moral support and care that he has made it possible for me to attain this stage of academic achievement in my life. I would like to thank Dr. Vikas Arora, Director and other faculty members of Maharishi Markandeshwar Institute of Management studies. They deserve my special regards for providing me all valuable help and encouragement. I lack words to explain my warm regards and gratitude to my dedicated parents who remained a source of inspiration throughout my research work. Their noble ideas and morale support have come a long way shaping my destiny. I would like to thank the library staff members of the institute, who were always helpful. I will be failing in my duties if I don’t thank all those authors and researchers from whose works I have refereed broadly. I am also thankful to all the respondents who spaced their invaluable time to give me the required information during the research work. I am highly grateful to all hotel industry respondents who shared their views openly which led me to make ultimate conclusions. I am also thankful to almighty, due to his kind blessings and inspirations to follow always right track and direction in my life in fulfilling the dreams of my life and family.
