The research work embodied in the present Thesis entitled “EFFECT OF FERROCEMENT LAMINATES WITH FLY ASH AND SILICA FUME AS PARTIAL REPLACEMENT OF CEMENT ON FLEXURAL STRENGTHENING OF REINFORCED CONCRETE BEAMS” has been carried out in the Department of Civil Engineering, Sona College of Technology, Salem. The work reported herein is original and does not form part of any other thesis or dissertation on the basis of which a degree or award was conferred on an earlier occasion or to any other scholar.

I understand the University's policy on plagiarism and declare that the thesis and publications are my own work, except where specifically acknowledged and has not been copied from other sources or been previously submitted for award or assessment.

Sincerely,

Scholar

Dr. R. MALATHY
