Acknowledgements

I express my sincerest gratitude and indebtedness to Dr. Ziauddin Ahmad Siddiqui, Professor Department of Botany, Aligarh Muslim University, Aligarh who inspired me to initiate the research work in the field of Plant Nematology especially Histopathology. I am highly indebted to him for his keen interest, constant encouragement, magnificent devotion and fervent supervision during the preparation of this manuscript.

I am indebted to Prof. Saeed A. Siddiqui, Chairman, Department of Botany for providing me all library and laboratory facilities.

I am also thankful to Prof. M. Wajid Khan, Ex-Chairman, Department of Botany for providing me the necessary facilities.

I, with insufficient and incompetent words, express my heartfelt sense of gratitude to Dr. Hisamuddin, Lecturer, Department of Botany, A.M.U. Aligarh for constructive criticism and valuable suggestions and sparing his precious time for going through this manuscript.

Financial assistance from Aligarh Muslim University as J R F is also acknowledged.

My humble thanks are also due to my parents, brother and sisters and Mr. Nazir A. Bhat, for their abundant support, patience, understanding and with whose encouragements and sacrificial devotions I, ascribe all my success.

Special thanks are extended to my friends and colleagues M. Imran, Dr. M Fazal, Kunhalvi, Showkat Ahmad, Dr. Ashaq, Dr. Fahmida Hasan, Nikhat Yasmeen and Shazia Siddiqui for their whole hearted co-operation and encouragements.

Alsa Computers is thankfully acknowledged for the timely preparation of this manuscript.

Finally, I bow in gratitude to ALMIGHTY ALLAH who provided and guided all the channels to work in cohesion and coordination and led me to this path of success.

(Mohd. Yaqub Bhat)
