ACKNOWLEDGEMENTS

The subject of this dissertation was suggested to me by my supervisor, Dr Jaya Menon. I am deeply grateful to her, without whose help, encouragement and guidance the present work would not have been completed. I can never forget her critical discussion at each stage and the care with which she made improvements upon my work.

I am grateful to the directors of the excavations at Indor Khera, Dr Jaya Menon and Dr Supriya Varma, for allowing me to participate in the excavations during the season of 2008-09. This greatly enabled me to understand the site and to see, at first hand, the artifacts that are the subject of this dissertation.

I am also very grateful to Mr Faiz Habib, Cartographer in the Department of History who has helped me draw the map in my dissertation. The photographs in the dissertation are due to the courtesy of my supervisor, Dr Jaya Menon.

I am thankful to the staff of the Seminar Library, Department of History and the Maulana Azad Library for their cooperation. Outside Aligarh, I have had the privilege of getting valuable help from the authorities of the Mathura Museum and its Library.

I am also much obliged to the University Grants Commission for granting me a scholarship which has provided me with much needed financial backing.
I also thankful to my younger brother, Chandravardhan, and my friend, Pavanesh Kumar, who helped me in various invaluable ways in my research work.

The blessing of my grandparents, parents, and my family has been a source of inspiration for me. My work would have suffered from an uninteresting approach had not they been so encouraging. I shall remain ever obliged to my grandparents, Shri Kuwar Pal Singh and Smt Savitree Devi, who has encouraged me throughout in my work and to whom this work is dedicated.

I am, however, responsible for any shortcomings that may still disfigure this dissertation.
