"All praises and thanks are to the Almighty Allah, the one Universal Being, the Creator, Cherisher, and Sustainer of the World. He created man and taught him what he knew not" (Al-Qur'an). He enlightened my life with the light of knowledge and endured me with the requisite ability to complete this piece of work.

Writing the acknowledgement page is perhaps the most pleasing moment of my whole project work, as it gives me an opportunity to express my gratitude and indebtedness to all those who have guided and helped me during the entire course of my project work.

I am really fortunate to have been gifted by God, the most affectionate parents and caring siblings who’s extraordinarily, unequivocal and inexhaustible support led to the grandiose of my discernment for which my mere expression of thanks likewise does not suffice.

It gives me immense pleasure to express my deepest appreciation to my supervisor Mr. Syed Mustufa Kazim Qaiser Zaidi (Associate Professor), Deptt. of Library and Information Science, who has the attitude of a genius. He continually and convincingly conveyed a spirit of adventure in regard to research and scholarship and excitement in regard to teaching. He has supported me throughout my dissertation with his patience and knowledge whilst allowing me the room to work in my own way. His able guidance, positive criticism, constant support and encouragement from the initiation of the work have led to the ship-shaping of this manuscript.
I have been very fortunate to have a teacher like Dr. Sudharma Haridasan, (Associate Professor). I would like to thank him for her patient guidance and introduction to the mysteries of Library Science. I have really been impressed by her enthusiasm for science and serious attitude as a teacher.

I shall remain grateful to my respected teachers Prof. Shabhat Hussain (Chairman), Dr. Naushad Ali P.M. (Ex-chairman), Dr. Nishat Fatima (Sr. Lecturer), Dr. Mehtab Alam Ansari (Sr. Lecturer) for their cooperative attitude, wise and knowledgeable counsel that acted as an impetus in the successful completion of my project work. I really enjoyed a lot of the open discussions with them.

I am also thankful to the seminar staff Mr. Riyaz Abbas, Mr. Zahid Hasan and Mrs. Saba Nasreen Bano, for maintaining a healthy working environment in the seminar library and rendering great assistance to me in the collection of material for my dissertation.

Special thanks to my seniors Shajrul-islam bhai, Mohd. Imran bhai, Shamama Apa and Fatima Apa for their ever-present support.

Last but by no means the least I have been fortunate to come across many good friends, without whom life would be bleak. Specially I would like to mention names of Sadaf, Sumbul, Farheen, Fahad Ahmad, Owes Bhai, Jyoti Di.
