ACKNOWLEDGEMENTS

I deem it a great privilege to express my profound and deep sense of gratitude to my teacher and guide Dr. S. Madialagan, Associate Professor, Department of Physical Education and Sports Sciences, University of Mysore, Mysore, a peerless source of inspiration, for his guidance, critical comments, and benevolent concern. He steered me through every problem and enabled me to complete this research work.

At the outset, I express my respectful gratitude to our beloved teachers Prof. Chandrakumar and Sri. Thirumala Gopalan, Chairman of the Department, who gave substance to my dreams and developed my formless conception into a researchable synopsis. They generously gave me their precious time to review and comment on my work in all phases of my research. If this work possesses any mark of distinction whatever it is entirely due to their encouragement and precious insights.

I am immensely grateful to Dr. Venkatesh, Sri Shiva Gowda, and Sri Shivanna Gowda faculty members of the Department of Studies in Physical Education and Sports Sciences, University of Mysore, Mysore for their advice, support, suggestions and encouragement in completion of this work.

I am indebted to Dr. Lancy D’Souza, Associate Professor, Maharaja’s College, University of Mysore, who since the beginning has encouraged me to carry out this research programme. I am especially indebted to him for his inspiring and encouraging advice with a human touch which indeed helped me to overcome several shortcomings of my own.

I gratefully acknowledge all the authorities of the University of Mysore for the opportunity given, and the support extended me to pursue my research programme.

My special thanks are due to all physical education teachers of the secondary schools of Dakshina Kannada for responding to the questionnaire.
My family members deserve a special acknowledgement for their inspiration, especially my father and mother who extended their wholehearted support and encouragement during the course of my work.

I am indebted to all my friends and well wishers who have directly or indirectly extended a helping hand in the successful completion of this research work.

Ashok Kumar
