CONTENTS

CHAPTER – 1

1.1. INTRODUCTION 1
1.2. Aim and scope 3
1.3. Objectives of the present study 4
1.4. Study area 4
1.4.1 Location and Importance of Study 5
1.5. Brief Resume of Previous Studies 7
1.6. Order of Presentation 15

CHAPTER – 2
GEOENVIRONMENTAL SETTINGS

2.1. Introduction 17
2.2. Geomorphology 17
2.3. The Physical Environment 18
2.4. Location and Area 19
2.5. Geology 20
2.6. Soil 20
2.7. Crops and Irrigational practice 20
2.8. Relief of the catchment zone 21
2.9. Drainage System 27
2.10 Dalvoy Lake Profile 28
2.11. Hydrography of Dalvoy Lake 28
2.12. Inlet / Outlet Details 29
2.13 Longitudinal profile of Dalvoy lake 32
2.14. Hydrodynamics 37
2.15. Evolutionary trends 37
2.16. HYDROCLIMATOLOGY 38
   a) Temperature 38
   b) Rainfall 38
   c) Humidity 40
   d) Wind 40
2.17. Urban Development (Mysore Gazette) 41
2.18 Inference 43

CHAPTER – 3
ECOLOGY OF DALVOY LAKE 44

3.1. Introduction 44
3.2. Status of life in Indian Lakes 44
3.3. Flora and Fauna (Appearance and Disappearance) 56
3.4. Phytoplankton and Zooplanktons 67
3.5 Environmental Analysis 71
3.6 Analysis of Biological Properties: 79
3.7. Nutrient Analysis 84
3.8. Trace elements in plants 88
3.9 Escherichia coli 95
3.10 Water Quality Index (WQI) 96
3.11 Inference

CHAPTER – 4
ENVIRONMENTAL HYDROCHEMISTRY 107

4.1. Introduction 107
4.2. Sampling methods 107
4.3 Results of analysis 109
   4.3.1. Major Cations and Anions 109
   4.3.2. Hydrogen Ion Concentration (pH) 109
   4.3.3 Electrical Conductivity 110
4.3.4 Temperature

4.4. Irrigational suitability
   a) Hardness of waters
   b) Sodium Adsorption Ratio (SAR)
   c) U.S.S.L. Classification
   d) Sodium Hazard (Handa’s Classification)
   e) Salinity Hazard
   f) Corrosivity Ratio
   g) Non-carbonate Hardness
   h) Sodium Percentage
   i) Residual Sodium Carbonate
   j) Collins Bar Diagram
   k) Piper Diagram

4.5. Trace elements in water samples

4.6. Sediments

4.7 Sand and Clay

4.8. XRD (Mineral Composition)

4.9. Trace elements in lake sediments

4.10. Major Elements in Lake Sediments

4.11 Inference

CHAPTER – 5
ECOLOGICAL MODELING

5.1 Introduction

5.2 Statistical modeling of Hydrochemical facies

5.3 Multiple Regression Models

5.4 Modeling – Purpose and Scope
   5.4.1 Numerical Models
   5.4.2 Families of Models

5.5 Modeling Lake Ecosystems:

5.6 Lake modeling in the last five years

5.7 UNEP and Lake Restoration
   5.7.1 UNEP’S Initiative in Lake Modeling
   5.7.2 UNEP’s PAMOLARE Model

5.8 Dalvoy Lake’s 1-Layer Model

5.9 Inference

CHAPTER – 6
CONCLUSIONS & RECOMMENDATIONS

6.1 Introduction

6.2 Conclusion drawn from the present investigation

6.3 Recommendations:
   6.3.1 Management of Dalvoy Lake
   6.3.2 Management measures/options
   6.3.3 Shoreline management
   6.3.4 Peoples’ Participation and Education
   6.3.5 Institutional Mechanisms

APPENDIX

BIBLIOGRAPHY
