Contents

Chapter 1 1
Introduction 1
1.1 Learning Science 4
1.2 Contextual Approach to Science Learning 5
1.3 School and Everyday Axis 8
1.4 The Present Research 9
  1.4.1 Cognitive Perspective 10
  1.4.2 Socio-cultural Perspective 11
  1.4.3 Science Education Perspective 12
  1.4.4 Aims, Objectives and Research Questions 13
1.5 Methodology in Brief 14
1.6 Choice of the Concept 'Matter' 14
1.7 The Location: Kerala 15
1.8 Organisation of Thesis 16
1.9 Summary 18

Chapter 2 19
Learning Science: Concepts and Contexts 19
2.1 Constructivism in Learning Theory and in Science Education 20
  2.1.1 Piaget's Theory of Learning 20
  2.1.2 Piaget's Theory of Concept Formation in Children 22
  2.1.3 Vygotsky's Theory of Learning 24
  2.1.4 Vygotsky's Theory of Development of Scientific Concepts 26
  2.1.5 Constructivism in Science Education 27
2.2 Learning Science 29
  2.2.1 Science Learning as Conceptual Change 30
  2.2.2 Socio-cultural Approaches to Science Learning 31
  2.2.3 Key Indian Researches 35
2.3 Some Features of Indian Schools and School Science 38
  2.3.1 Between Cultures: 'Modernity' and 'Tradition' 38
  2.3.2 Social Aims of School Science 40
  2.3.3 Delegitimisation of 'Local' And Dependence on Rote 41
  2.3.4 'Universal and Abstract' to 'Decontextualised' 42
  2.3.5 Separation of Knowing and Doing 42
  2.3.6 Predominance of The Textbook and Curricular Standardisation 43
  2.3.7 Hoshangabad Science Teaching Programme (HSTP) 45
  2.3.8 People's Science Movement: The Case of KSSP 47
  2.3.9 National Curriculum Framework-2005 50
2.4 Approach and Framework for the Study of Children's Science Learning 54
  2.4.1 Approach 54
  2.4.2 Framework for the Study of Contexts and Concepts 56
2.5 Conclusion 58
Chapter 3  61
Research Design and Methodology  61
3.1 Introduction  61
3.2 Designing the Study  61
3.3 The Socio-cultural Context of the Child and School: 'Everyday World'  64
3.4 Science Curriculum and Textbooks  65
3.5 Context of the Science Classroom  68
3.6 Tasks and Clinical Interview  69
3.7 Field Work  71
   3.7.1 Field Work Phases and Data Collection  71
   3.7.2 Choice of the Research Site  72
   3.7.3 Gaining Access  72
   3.7.4 Sites and Objects and Subjects of Study  73
   3.7.5 Data Collection  74
3.8 Analysis  75
3.9 Conclusion  77
Chapter 4  85
Introduction to the Field  85
4.1 Schooling in Kerala  85
   4.1.1 School Education: Institutions and Interventions  88
   4.1.2 The Reform Process in Kerala  89
4.2 The Village  91
   4.2.1 Habitat and Economy  92
   4.2.2 Religion, Caste and Culture  97
   4.2.3 Intellectual Climate  100
4.3 Schooling in Kothamangalam  101
4.4 The Government Vocational Higher Secondary School- 'G'  105
   4.4.1 School Management  107
   4.4.2 Students Background, Academic Performance and Enrolment
      4.4.3 Background of Parents  114
      4.4.4 Teachers and Staff  115
4.5 Life in the School  116
4.6 Gender Interaction  119
4.7 Overview  121
4.8 Conclusion  123
Chapter 5  125
The Science Curriculum and Textbook  125
5.1 Studying Science Textbooks and Curriculum.  125
5.2 The Kerala State Science Curriculum  127
   5.2.1 Curricular Principles  128
   5.2.2 Observations on Curriculum  131
5.3 The Science Textbooks and Teacher Handbook  132
5.4 The Science Textbooks from Grade IV To VIII: General Features and Overview of the Content
   5.4.1 Observations on the Content of Science Textbooks  136
Chapter 6
The Science Classroom
6.1 Framework for Understanding the Process of Teaching and Learning in a Classroom
6.2 Science Classrooms According to the Teacher Handbook
6.3 Science Classrooms of GVHSS-M: an Introduction
6.4 Preparation for Teaching
6.4.1 Teacher Training
6.5 The Classroom Process and Activities in the Middle School
6.5.1 The Mode of Classroom Teaching
6.5.2 Demonstration Combined with Discussion
6.5.3 Lecture Method Combined with Discussion
6.5.4 Projects
6.5.5 Conduction of Projects in the Classroom
6.5.6 Seminar
6.5.7 Club Activities
6.6 Socio Cultural Dimensions of the Classroom
6.6.1 Teacher Student Interaction in the Middle School
6.6.2 Gender Interaction
6.7 Discussion

Chapter 7
Children's Conceptions of Matter
7.1 The Concept of Matter: Previous Studies
7.1.1 Initial Conceptions of Matter and Object-matter Differentiation
Chapter 8

8.1 Overview

8.1.1 Everyday World and School World
8.1.2 The STS Approach in Science Curriculum
8.1.3 Curricular and Pedagogic Reform
8.1.4 Approach to the Content and Pedagogy in The Science Textbooks
8.1.5 Treatment of the Concept of Matter in the Science Textbooks
8.1.6 Language of Science
8.1.7 Dominant Pedagogy in Middle School Science Classroom
8.1.8 Children's Conceptions of Matter

8.2 'Everyday' and School Science Education
8.3 Future Research Directions and Conclusion
