INDO-AMERICAN EDUCATION SUMMIT & EXPO 2013

INDO-AMERICAN EDUCATION SUMMIT & EXPO 2013 on collaborations with foreign universities will be held at Marigold Hotel (5 Star), Begumpet, Hyderabad on February 2 & 3, 2013.

Indo-American Education Summit 2013 is a unique event which is being organized in India as a sequel to the highly successful Education Summits held in 2009, 2010, 2011, and 2012. The Summit 2013 will have sessions on collaborative research programs, joint / dual degree programs, twinning & transfer programs, faculty & student exchange programs, study abroad in India programs, distance education programs, vocational education programs, and other academic partnerships. There will be separate sessions for student recruitment. An important feature of the Summit would be visits to well established and prominent Indian educational institutions.

Major fields covered would be Engineering & Applied Sciences, Information Technology, Business & Management, Clinical & Health Sciences, Life Sciences & Biomedicine, Agricultural Sciences & Environment, Education & Technology, Arts & Humanities, and Social Sciences. There will be one-on-one meetings between representatives of Indian institutions and those of foreign universities for forging academic collaborations. The Summit 2013 is specifically designed for Managing Directors, CEOs, Vice-Chancellors, Principals, Provosts, Deans, Dept. Heads, Faculties, Trustees, Correspondents, Government Officials, and others connected with higher education.

Education Expo 2013, an integral part of the Indo-American Education Summit 2013, will take place on February 2 and 3, 2013 at Green Park Lawns, Marigold Hotel, Hyderabad.

Highlights

* Most comprehensive educational event of its kind ever held in India
* Biggest networking event for leaders in education from around the World
* Convergence of who is who of the huge Indian educational system
* Participation by an estimated 1,000 top Indian and foreign universities
* Major Sessions on academic collaborations in several academic disciplines
* Recruitment sessions involving one-on-one meetings with Indian students
* Attendance of thousands of students interested to study in India / Abroad
* Extensive media coverage for the Summit & Expo during and after the event
* Expo 2013 for showcasing best practices in teaching, learning and training
* Global awards for educational excellence to Indian and foreign institutions
* National Awards for Eminent Educationists and Entrepreneurs of India
* National awards for teaching excellence to faculty of Indian institutions
* National awards for academic excellence to students of Indian institutions

MESSAGE OF DR. KAPIL SIBAL, Minister of Human Resource Development and Minister of Communications and Information Technology, Government of India, New Delhi

“Globalization, together with information technology is driving a revolution in the realm of work, production of goods and services, relations among nations and even local communities. No field of human activity is immune from the effects of this revolution, which is changing the very fundamentals of human relations and social life. Two of the main drivers of Globalization are information and innovation, and they, in turn, are highly knowledge intensive. The outcome is that Globalization increases the demand for education, especially university education, and this increases pressure on the whole system for higher quality schooling. Presently the Gross Enrolment Ratio in higher
education is around 20%; we seek to raise it to at least 30% by 2020, which in real terms means doubling of the enrolment in the tertiary education.

The Ministry of Human Resource Development firmly subscribe to the view of ‘Educational Excellence Without Borders’, the byline of the Indus Foundation. I am pleased to learn that the Indus Foundation, is organizing the Indo-American Education Summit on collaborations with foreign universities. My best wishes to Indus for a very meaningful Indo-American Education Summit.”

**INVITATION**

Dear Colleagues,

We are pleased to invite you and your institution to the Indo-American Education Summit & Expo 2013 on collaborations with foreign universities and student enrollment.

The Indus Foundation is a non-profit educational organization dedicated to the promotion of higher education in India. The Foundation is well established internationally for over 17 years. An important mission of the Foundation is to galvanize high-impact collaborations between Indian institutions and reputable foreign universities, apart from guidance of students for higher education.

An important feature of the Summit & Expo 2013 would be presentation of global and national awards in recognition of excellence in several academic fields such as Arts, Commerce, Science, Law, Engineering, Medicine, etc.

**Global Awards for Educational Excellence:** These awards are presented to educational and training institutions from around the world in recognition of their educational excellence in various fields. Awards are given to institutions focusing their energies on overall quality of education.

**National Awards for Eminent Educationists:** These awards recognize eminent educationists, entrepreneurs, and visionary thinkers who have displayed skills in creating and sustaining educational institutions, pursuing new opportunities, engaging in continuous innovation, and exhibiting a high degree of accountability for quality education.

**National Awards for Teaching Excellence:** These Awards recognize Indian faculty with outstanding overall teaching record and ability to inspire and change the lives of students. The faculty must have applied innovative teaching methods.

**National Awards for Academic Excellence:** The awards recognize Indian students with outstanding academic track records at any level including senior secondary (intermediate, pre-university), vocational education, undergraduate, post-graduate, and doctoral.

We invite you to send nominations for the awards which will be presented during the Summit & Expo 2013. The selection criteria and other terms and conditions relating to the awards are detailed in this brochure. National and international media will cover the event and give wide publicity.

We look forward to you and your institution to participate and take advantage of the enormous opportunities offered by this major international event.

We sincerely solicit your active involvement in our efforts to improve the quality of education in our country.

Thanking you and with warm regards,

C.D.Arha, IAS (Retd.)  
Former Secretary, Government of India  
Chairman, The Indus Foundation
Indian educational system has been undergoing a paradigm shift in the recent past. India has the world’s second largest post-secondary student population of around 20 million. India has over 611 universities and university-level institutions and 31,400 colleges, and yet the gross enrollment ratio (GER) is low with only 20 per hundred accessing higher education. India is far behind the developed countries’ average of 45 per hundred. The Government of India has set a GER target of 30 per cent by 2020 and for that to be achieved, the number of universities and colleges will have to be increased many fold, while enhancing the quality of existing institutions.

A major challenge is educational excellence. India has islands of excellence but the overall education standards are poor. The report that 60 to 70 percent of engineering graduates churned out are not employable, speaks about the quality of higher education in India. None of Indian universities are in the list of top ranked universities in the world. All this needs to change.

The Indus Foundation offers an efficient and cost-effective means of interaction between Indian institutions and foreign universities through the specially designed Indo-American Education Summit & Expo. Activities during the Summit include panel discussions and one-on-one interactions between Indian institutions and foreign universities for academic collaborations. The Summit is designed to be a fast-paced program, providing Indian institutions with valuable exposure to a large number of reputable foreign universities from around the world. The Summit will help Indian institutions achieve excellent results in terms of academic collaborations and student enrollment.

**Benefits of Summit 2013**

Through academic collaboration with reputable foreign universities, Indian institutions will be able to enrich the quality of their programs by tapping the outstanding teaching expertise and latest curricular developments. Further, the Indian institutions will be able to provide their students with first-hand knowledge of the latest developments, trends, and techniques available at the foreign universities. As a consequence, Indian institutions will have a marketing edge for attracting a wider pool of good quality students from India and abroad. Some of the benefits are:

**ACADEMIC COLLABORATIONS**

1. Establishment of Research Collaboration programs with foreign universities.
2. Collaborations with foreign universities for offering Joint / Dual Degree programs in India.
3. Development of Twinning and Transfer programs with foreign universities.
4. Collaborations with foreign universities for offering career-oriented programs in India in a wide range of fields.
5. Collaborations with foreign universities for offering distance education & vocational education programs.
6. Setting-up of partnership programs with foreign universities for assured admission of Indian students, after completion of their studies.
7. Faculty Exchange programs between foreign universities and Indian Institutions for gaining international exposure.
8. Student Exchange programs with foreign universities for enhancing the educational experience of students.
9. Attracting students of foreign universities for study in Indian Institutions.
10. Opportunities for developing consulting projects with foreign universities.
11. Opportunity to apply for the prestigious award for educational excellence.
**ENROLLMENT OF STUDENTS (Indian Sponsors & Expo Participants only)**

1. Opportunity to recruit undergraduate and postgraduate students.
2. Generation of income and saving of money on recruiting activities.
3. Enlargement of the marketplace for enrolling better-qualified students.
4. Substantial reduction of time and costs for recruiting students.
5. Recruitment of financially able, better prepared, and highly motivated students.
6. Enrollment of larger proportion of admitted students for different programs.
7. Database of students attending the Summit with their contact details.
8. Profile of the participating institution put up on the popular website of the Indus Foundation.

**Who should attend?**

Indo-American Education Summit & Expo 2013 is a must for anyone involved in international academic collaborations, as well as those interested in student enrollment. The Summit attracts high-level decision makers who are shaping the education field. Senior professionals from education, business and government sectors from around the world come together to take part in the Summit & Expo. Student enrollment is done at the Expo which will be visited by several thousand students and parents:

- Chancellors and Vice Chancellors of Universities
- Presidents and Provosts of Universities
- Company Presidents / CEOs
- Deans, Directors, and Dept Heads from Universities
- Principals of Colleges
- Enrollment / Recruitment Officers of Universities
- Scientists & Researchers
- R&D Organizations
- Corporate Training & Development Executives
- Corporate University Managers
- Human Resources Executives
- Program Managers and Education Administrators
- Professors and Trainers
- Officials from International, National, and Regional Agencies
- Senior Governmental Officials
- Leaders of Professional Associations and Expertise Centers
- Technology and Service Providers
- Multimedia and Software Designers
- Training Consultants and Company Representatives
- Test Preparation Companies
- Banks & Financial Institutions
- Insurance Companies
- Overseas Education Agencies
- Career Counselors
- Placement Officers
- Travel Agencies
- Publishing Houses
- International Education Missions
- Educational Software Companies
- Manufacturers of Scientific Instruments
- Infrastructure Companies
- Manufacturers of Lab Equipments
- Foreign Exchange Companies

**Summit & Expo Program Details**

Indo-American Education Summit & Expo 2013 on collaborations with foreign universities and student enrollment will be held in Marigold Hotel (5 Star), Hyderabad, on February 2 & 3, 2013. Educational tour of India will be held for foreign participants from February 5 to 14, 2013.
An important feature of the Summit 2013 would be presentation of global awards to institutions in recognition of their educational excellence in several fields such as Arts, Business, Management, Science, Engineering, Medicine, Law, etc. National awards will be given to faculty of Indian institutions in recognition of their teaching excellence. National awards will be given to Indian students with outstanding academic track records.

**ACADEMIC COLLABORATIONS – SESSIONS**

Summit will have sessions on collaborative research programs, joint / dual degree programs, twinning & transfer programs, distance education & vocational education programs, faculty & student exchange programs, study abroad in India programs, and other academic partnerships.

The sessions will cover the fields of Engineering & Applied Sciences, Information Technology, Business & Management, Clinical & Health Sciences, Life Sciences & Biomedicine, Agricultural Sciences & Environment, Education & Technology, Arts & Humanities, and Social Sciences. The sessions involve panel discussions by selected foreign universities and Indian institutions. Sponsors will make brief presentations at the end of panel discussions. There will be open-house discussions at the end of the sessions.

The academic collaboration sessions of the Summit are meant for representatives of foreign universities, foreign educational organizations, diplomatic officials, Indian institutions, Indian corporations and organizations. Students will not be present at these sessions.

**ACADEMIC COLLABORATIONS - ONE-ON-ONE MEETINGS**

During the Summit one-on-one meetings between representatives of foreign universities and those of Indian institutions, Indian corporations and organizations will take place. Each representative of foreign universities and Indian sponsors will be given a table for interacting with other participants of the Summit.

**RECRUITMENT OF STUDENTS**

On February 2 and 3, 2013, there will be recruitment of students at Green Park Lawns, Marigold Hotel. Foreign universities and Indian sponsors will have the opportunity to take part in the recruitment of students. Students interested in studying abroad or in India will participate in the one-on-one meetings with representatives of foreign universities and Indian sponsors during the Summit on both days. Indian students will have the benefit of referring to the profiles of participating foreign universities and Indian sponsors on the website of the Indus Foundation at http://www.indus.org/. Entry is free for Indian students. Each representative of foreign universities will be given a table for interacting with Indian students. Indian sponsors will be given one or more stalls based on their level of sponsorship.

NOTE: Indian participants interested in enrollment of students are advised to take part in the Expo by booking one or more stalls (booths) for enhancing their visibility and for better interaction with students and parents.

**VISITS TO INDIAN INSTITUTIONS**

On February 4, 2013, visits by foreign universities to well established and prominent Indian educational institutions in Hyderabad will be organized for forging academic collaborations and for recruitment of students.

**Program Details**

**FEBRUARY 1, 2013**

12.00 Noon onwards: Registration of Delegates at Marigold Hotel, Hyderabad

**FEBRUARY 2, 2013**

7.30 am onwards: Registration of Delegates at Marigold Hotel (5 Star), Hyderabad.

10.00 am to 6.00 pm: Green Park Lawns

- Indo-American Education Expo 2013
- Recruitment of Students (One-on-one meetings between representatives Foreign
Universities / Exhibitors / Indian Sponsors and Indian Students

Global Awards for Educational Excellence

An important feature of the Summit & Expo would be presentation of awards to educational institutions from around the country in recognition of their educational excellence in various fields. Hundreds of colleges and institutions have been coming up across the country offering a plethora of courses in various streams like engineering, medicine, business management and many more. This rapid pace of growth has brought to the fore compelling issue of effective management of the educational programs so as to better prepare our youngsters for the fast evolving competitive environment. Many colleges are focusing their energies on overall quality of education and making their students more employable so that they can make meaningful contribution towards making India a superpower in the coming years.

Every year, the Indus Foundation identifies and recognizes the achievements of some of the finest colleges and institutions by presenting them with Awards for Educational Excellence.

Initiated in 2010, the Indus Foundation’s awards identify and promote innovation and educational excellence. The awards are not meant to be rankings of educational institutions. The awards are in recognition of educational excellence in specific fields of academe. Institutions catering to higher education will be considered for this purpose. Educational and training institutions / organizations are invited to send their nominations for consideration of the award of educational excellence.

The nominations should give details of the institution and the specific reasons as to why it should be chosen for the award in a specific field of academic activity. The selection of awardees will be made by the experts of the Indus Foundation and their decision will be final. The awards will be presented during the valedictory function of the Summit & Expo 2013. National and international media will cover the event and the event is given wide publicity.

THE AWARDS

The award provides the recipient with a certificate and a memento.

MAJOR FIELDS FOR AWARDS
Following are some of the major fields of study for which nominations for the award may be made.

Nominations for other fields or sub-fields will also be considered.

Accounting
Actuarial Science / Insurance
Advertising and Public Relations
Aeronautical Engineering
Agricultural Sciences
Analytical Chemistry
Animation and Computer Graphics
Architecture
Arts / Fine Arts
Audio-Visual Media
Aviation Management
Biochemistry
Bioinformatics
Biological Sciences
Biomedical Sciences
Biomedical Engineering
Biotechnology
Business Administration / Management
Cell Biology
Chemical Engineering
Chemistry
Civil Engineering
Clinical Laboratory Sciences
Clinical Psychology
Communications
Computer Engineering
Computer Science
Construction Management
Counseling Psychology
Dentistry
Economics
Education
Educational Media / Instructional Technology
Electrical and Electronics Engineering
Electronic Commerce
Engineering Management
Environmental Sciences
Epidemiology / Public Health
Exercise / Sports Science
Fashion Design
Film, TV, and Video Studies
Finance and Banking
Fisheries and Marine Studies
Food Science and Technology
Foreign Languages
Genetics
Geographic Information Systems
Geology / Geosciences
Graphic Design
Health Physics / Radiology
Health Services Management
Hospital Administration
Hospitality Management
Human Resources Management
Immunology

Internet Technologies
Journalism and Mass Communications
Landscape Architecture
Law and Legal Studies
Library Science
Management Information Systems
Management of Technology
Marketing
Mathematics
Mechanical Engineering
Medical Laboratory Technology
Medicine
Microbiology
Molecular Biology
Music
Networking
Neurosciences
Nursing
Nutrition / Dietetics
Occupational Therapy
Organizational Management
Petroleum Engineering
Pharmaceutical Sciences
Pharmacology and Toxicology
Physical Sciences
Physical Therapy
Physician Assistant Studies
Physiology
Pilot Training
Project Management
Psychology
Public Health
Software Engineering
Statistics
Systems Engineering
Telecommunications Engineering
Transportation and Highway Engineering
Travel and Tourism
Urban and Regional Planning
Veterinary Sciences

CATEGORIES OF INSTITUTIONS ELIGIBLE FOR AWARDS: Following categories of institutions will be considered for awards:

1. Central Universities
2. State Universities
3. Deemed Universities
4. Private Universities
5. Institutes of National Importance
6. Autonomous Colleges
7. Degree Colleges
8. Women’s Colleges
9. Distance Education Colleges
10. Vocational Education Colleges (Technical Colleges, Community Colleges, Polytechnics, ITIs, etc.)
11. Senior Secondary Schools (Intermediate Colleges, Junior Colleges, Pre-University Colleges, Kendriya Vidyalayas, International Schools, etc.)
12. Corporate Training Institutions
13. Software / Technology Training Institutions

SELECTION CRITERIA

The basic principle underlying the award is that the awardees must have made a transformative impact in the field of higher education. Higher education is experiencing transformation on a global scale, with the emergence of innovations that are changing how education is both administered and absorbed. The nominations must show that transformation in education is taking place in their institutions. The awards are based on criteria that include but are not limited to infrastructure, faculty, placements, strength of students, annual growth, students & alumni feedback, feedback from the industry, etc. Nominations must also show that their educational activities have delivered on the following criteria:

1. Educational Transformation: the overall extent to which the educational activity has transformed an aspect of education that has also had societal impact;

2. Sustainable investment: the extent to which the educational activity is funded in a sustainable way to ensure its continuing viability;

3. Innovation: the extent to which the educational activity is innovative in design and/or practice, thereby transforming traditional means of educational delivery;

4. Inclusion and Diversity: the extent to which the activity includes a diversity of beneficiaries and has enhanced equality of access to education;

5. Quality of Learning: the extent to which the transformation has improved the quality of learning;

6. Monitoring and Evaluation: the extent to which there is evidence of effective ongoing enhancement of the program through regular monitoring and evaluation procedures.
TERMS AND CONDITIONS

1. Registered advertisers, exhibitors, or sponsors in the Summit & Expo 2013 are eligible to send nominations for the award as detailed below:
   - **Advertiser**: 1 nomination in any field
   - **Exhibitor**: 1 nomination in any field
   - **Bronze Sponsor**: 2 nominations in different fields
   - **Silver Sponsor**: 4 nominations in different fields
   - **Gold Sponsor**: 6 nominations in different fields

Gold Sponsor: 6 nominations in different fields

2. All entries must reach the Indus Foundation on or before January 15, 2013.
3. Entries are to be sent on soft-copy (not exceeding four A4 pages) to indus@indus.org.
4. Decision of the experts of the Indus Foundation will be final and binding.
5. Award winners will be notified by e-mail after the selections are made.

National Awards for Eminent Educationists

Education is the engine that fuels personal development, and societal and economic progress. Educational entrepreneurship results in increased innovation and sustained economic growth.

OBJECTIVE

The objective of the awards is to promote educational entrepreneurship as one of the key drivers of sustained social development and economic progress. It aims at encouraging creation of sustainable, scalable and relevant education systems. The awards are meant for inspiring the next wave of educational leaders and innovators who will not only create jobs and value for society, but also empower others to create a better future.

SELECTION CRITERIA

Awards will be given to eminent educationists, entrepreneurs, and visionary thinkers who have set up one or more educational institutions in any part of India. Such institutions must have made a qualitative impact on the student community. The awards recognize the outstanding contribution made at any post-secondary level.

The awards will be given to those who have displayed skills in creating and sustaining educational institutions, pursuing new opportunities, engaging in continuous innovation, and exhibiting a high degree of accountability for quality education.

THE AWARD

The award provides the recipient with a certificate and a memento.

TERMS AND CONDITIONS

1. Registered advertisers, exhibitors, or sponsors in the Summit & Expo 2013 are eligible to send one nomination for the award.
2. All entries must reach the Indus Foundation on or before January 15, 2013.
3. Entries are to be sent on soft-copy (not exceeding two A4 pages) to indus@indus.org.
4. Decision of the experts of the Indus Foundation will be final and binding.
5. Award winners will be notified by e-mail after the selections are made.

National Awards for Teaching Excellence

The purpose of the Awards for Teaching Excellence is to recognize excellence in teaching in higher education. It is envisioned that the awards for teaching excellence would bring much-needed attention to—and recognition of—best teaching practices at this time of great developments in the Indian Higher Education.

THE AWARD

The award provides the recipient with a certificate and a memento.

ELIGIBILITY

- Candidates should have put in a minimum of 5 years of service in post-secondary education.
- They must be engaged in active teaching work on the date of recommendation.
- They must be nominated by the head / principal / director of the institution / college.
SELECTION CRITERIA

All candidates must have an outstanding overall teaching record and be able to demonstrate inspiring and life-changing effects on students. In addition, each candidate must show exemplary experience in one or more of these practices:

- Applying innovative teaching methods
- Combining theory and practice, relevance and scholarly excellence
- Using research elements to achieve excellence in teaching
- Applying problem-based/problem-oriented teaching
- Achievements in encouragement of critical thinking
- Use of teaching aids and instructional technology
- Research contributions, publications, books, etc.
- Professional recognitions, awards, etc.
- Involvement in consultancy and other co-curricular activities

NOMINATIONS OF CANDIDATES

Those wishing to nominate candidates for the award must submit the following:

- A detailed statement in support of the nomination (approximately 1,000 words)
- The candidate’s curriculum vitae (or resume) and contact information

TERMS AND CONDITIONS

1. Registered advertisers, exhibitors, or sponsors in the Summit & Expo 2013 are eligible to send nominations for the award as detailed below:
   - Advertiser: 1 nomination in any field
   - Exhibitor: 1 nomination in any field
   - Bronze Sponsor: 2 nominations in different fields
   - Silver Sponsor: 4 nominations in different fields
   - Gold Sponsor: 6 nominations in different fields
2. All entries must reach the Indus Foundation on or before January 15, 2013.
3. Entries are to be sent on soft-copy (not exceeding 1000 words) to indus@indus.org.
4. Decisions of the experts of the Indus Foundation will be final and binding.
5. Award winners will be notified by e-mail after the selections are made.

National Awards for Academic Excellence

The Indus Foundation is pleased to recognize academic excellence in students of Indian institutions by presenting Awards for Academic Excellence.

The awards recognize students who have outstanding academic track records at the following levels: senior secondary (Intermediate, Pre-University, CBSE, ISC, IB), vocational, undergraduate, post-graduate, and doctoral.

THE AWARD

The award provides the recipient with a certificate.

Key Objectives

1. To acknowledge and promote student academic excellence,
2. To give students recognition that feeds into their curriculum vitae and future careers, and
3. To make students visible to the academic community thereby upgrading standards of excellence and achievement.

Nominations

The award will be given to the students designated by heads of Indian institutions as attaining the highest grade point average or marks in any program at post secondary level. The awards are certificates suitable for framing.

Heads of institutions should submit the nominations by e-mail to indus@indus.org. Each student's full name and the title of the program along with a brief description of the student in about 200 words should be given.

Distribution of awards: Award certificates will be given away to the students during the Summit & Expo 2013.
TERMS AND CONDITIONS

1. Registered participants, advertisers, exhibitors, or sponsors in the Summit & Expo 2013 are eligible to send nominations for the award as detailed below:
   - Participant: 1 nomination
   - Advertiser: 2 nominations
   - Exhibitor: 2 nominations
   - Bronze Sponsor: 4 nominations
   - Silver Sponsor: 8 nominations
   - Gold Sponsor: 12 nominations

2. All entries must reach the Indus Foundation on or before January 15, 2013.
3. Entries are to be sent on soft-copy (not exceeding 200 words per student) to indus@indus.org.
4. Decision of the experts of the Indus Foundation will be final and binding.
5. Award winners will be notified by e-mail after the selections are made.

Indo-American Education Expo 2013

Indo-American Education Expo 2013, an integral part of the Indo-American Education Summit 2013, will take place on February 2 and 3, 2013 at Green Park Lawns, Marigold Hotel, Hyderabad. The two day Expo will attract educational institutions, companies, and government bodies. The Expo, running in parallel with the Summit, would provide a showcase of technology and training solutions, put the spotlight on educational institutions of excellence, and highlight best practices in teaching, learning and training. The Expo would also highlight progress in the development of Information and Communications technologies for education. The Expo would be a place where students aspiring for higher education, their parents, teachers, professors, educationists, and others, would throng.

Venue of Expo 2013

Green Park Lawns, Marigold Hotel (5 Star)
Greenlands, Begumpet, Hyderabad - 500016
Tel: 91-40-67363636; Fax: 91-40-67363637
Web: http://www.marigoldhotels.com/

TIMINGS: 10.00 am to 6.00 pm

EXHIBITOR PROFILE

Institutes offering Engineering, Technology, HRD, Business, Management, Medicine, IT, Architecture, Designing, Fashion; Technical & Vocational Colleges, Open Universities, Management Training Centres, Computer Schools, Schools of Fine Arts, Language Centres, Correspondence Schools, Distance Learning Centres.

VISITOR PROFILE

Higher Secondary Students, Diploma Holders, Graduates, Post-graduates, Professionals, Job Seekers, Working Adults, Career Guidance Personnel, Parents, Teachers, Academicians, Joint Venture Partners, Business Visitors, Publishers,
Librarians, Researchers, Writers, Dealers and Traders, General Public.

BENEFITS OF EXPO

Expo offers multiple benefits to participating colleges, institutions, and organizations. Expo enables exhibitors to connect with students, parents and local public to showcase the quality of what they offer in terms of courses, faculty, facilities, extracurricular activities and campus recruitment. The student community will have a chance to check for themselves what is on offer, weigh their options and then make an informed choice. Students are given counseling by experienced faculty from participating institutions on the courses they should take according to their career choices. The exhibitors get in touch with as many of their prospective students as they can from the vast pool of visitors. The leads they get during the Expo turn into enrollments in due course.

Participation in Summit & Expo 2013

PARTICIPATION FEE

The fee for participating in the Indo-American Education Summit as delegate is only Rupees 4,000 per person. The bank draft / cheque is payable to “The Indus Foundation, Hyderabad” at the earliest. The fee includes:

- Participation in academic collaboration events.
- Interaction with officials of foreign universities.
- Advance publicity in India and abroad through the print and other media.
- Press releases during the promotional build-up of the Summit.
- Experienced Indus personnel for guiding the participants.
- All Summit materials including the Summit Souvenir.

- Complementary luncheons and coffee / tea.
- Eligibility to nominate one student for the award for academic excellence. Head of institution should submit the nomination.

The Summit is expected to have more applicants for participation than it can accommodate. Registration for participation in the Summit will be on a “first come, first served” basis, and will be stopped upon reaching targeted number. Participants should send the registration form at the earliest by mailing the hard copy along with payment. Payment is to be made by bank draft or check, payable to THE INDUS FOUNDATION, HYDERABAD. For the Summit registration form, please visit http://www.indus.org/

EXPO STALL

Indo-American Education Expo 2013 will take place on February 2 and 3, 2013 at Green Park Lawns, Marigold Hotel, Hyderabad. The facilities provided in each stall are built–up stand, spot lamps, fascia, floor covering, one table, two chairs, and one 5 amp. electric socket. Stall Size is 6 Sq. Metres. Cost of Stall is only Rs. 30,000. Exhibitors will be given the following benefits per each stall booked:

- Participation opportunity for two persons in the Summit.
- Two sets of Summit materials including the Summit Souvenir.
- Complementary luncheons and coffee / tea for two persons.
- Eligibility to nominate for the Awards in all categories.

SUMMIT SOUVENIR

The Summit Souvenir will contain information related to higher education along with the names and addresses of foreign participants, sponsors, and Exhibitors. The Souvenir will also contain details of the specific areas of interest of the foreign universities and Sponsors with regard to academic collaborations. The Souvenir will be distributed widely amongst participants, educational institutions, invitees, advertisers, governmental organizations, corporations, and others. Indian institutions,
corporations and organizations are invited to take advantage of the Summit by advertising in the Souvenir as part of their promotion for maximizing their exposure. The Souvenir will have offset printing in A4 size - Width 18 cm; Height 25 cm. The advertisement tariff for Full page in color is only Rs. 20,000.

SPONSORSHIP OF THE SUMMIT

Indian institutions, corporations and organizations are invited to sponsor the Indo-American Education Summit and take advantage of the various opportunities available for academic collaborations. They may sponsor the Summit for maximizing their exposure in print, online, and on-site at India’s largest and most comprehensive event of its kind. Sponsorship of the Summit helps them to build their brand muscle and visibility. The Summit will have powerful audience of decision-makers, who represent a large number of foreign and Indian institutions. Sponsorship is the best way to reach everyone. Sponsorship opportunities are available on a “first-come, first-served” basis. Registration for Sponsorship must be done well in advance.

NOTE: Sponsors of the Summit do not have to pay for participation, advertisement, Expo stall, and hotel accommodation separately as they are all covered by Sponsorship fee. Details of Sponsorship options and benefits along with the fees payable are given below.

Gold Sponsor – Rs. 300,000/-

1. Five Minute presentation during the inaugural plenary by the Sponsor.
2. Speaker slots (5 minutes) in any three sessions as per Sponsor’s choice.
4. Message from the head of the Sponsor’s institution in the Summit Souvenir.
5. Logo on the stage backdrop of the Summit venue and other locations.
7. Logo on all the print materials used during the Summit.
8. Three Table spaces for interaction with foreign universities for collaborations.
9. Participation opportunity for up to 8 members of Sponsor’s organization.
10. Invitations to 8 members of Sponsor’s staff for Dinner with foreign universities.
11. Accommodation (4 rooms) in a first class hotel (lodging only) for two nights.
12. Branding / Logo at Registration counter at the Summit venue.
13. Logo on carrier bags given to participants of the Summit.
14. Distribution of Sponsor’s literature to participants of the Summit.
15. Four full pages Advertisement in the Summit Souvenir.
16. Presentation of Sponsor (four A4 pages) will be put up on Indus website.
17. Profile of Sponsor (four A4 size pages) will be put up on Indus website.
18. Profile of Sponsor (four A4 size pages) will be included in the Summit Souvenir.
19. Areas of interest for Collaboration will be put up on Indus website.
20. Participation in the academic collaboration events.
21. One-on-one meetings with twenty selected foreign universities.
22. Five additional sets of Summit materials including the Summit Souvenir.
23. Complementary luncheons and coffee / tea for two days.
24. Eligibility to nominate for the Award for Educational Excellence in 6 different fields.
25. Eligibility to nominate one person for the Award for Eminent Educationist.
26. Eligibility to nominate 6 candidates for the Award for Teaching Excellence.
27. Eligibility to nominate 12 students for the Award for Academic Excellence.
Silver Sponsor – Rs. 200,000/-

1. Speaker slots (5 minutes) in any two sessions of Sponsor’s choice.
2. Two stalls in the Education Expo 2013.
3. Logo on the stage backdrop of the Summit venue and other locations.
4. Logo on the Indus Foundation’s website connecting to Sponsor’s website.
5. Logo on all print materials used during the Summit.
6. Two Table spaces for interaction with foreign universities for collaborations.
7. Participation opportunity for up to 6 members of Sponsor’s organization.
8. Invitations to 6 members of Sponsor’s staff for Dinner with foreign universities.
9. Accommodation (3 rooms) in a first class hotel (lodging only) for two nights.
10. Branding / Logo at Registration counter at the Summit venue.
11. Logo on carrier bags given to participants of the Summit.
12. Distribution of Sponsor’s literature to participants of the Summit.
13. Two full pages Advertisement in the Summit Souvenir.
14. Profile of Sponsor (four A4 size pages) will be put up on Indus website
15. Areas of interest for Collaboration will be put up on Indus website.
16. Participation in the academic collaboration events.
17. One-on-one meetings with fifteen selected foreign universities.
18. Three additional sets of Summit materials including the Summit Souvenir.
19. Complementary luncheons and coffee / tea for two days.
20. Eligibility to nominate for the Award for Educational Excellence in 4 different fields.
21. Eligibility to nominate one person for the Award for Eminent Educationist.
22. Eligibility to nominate 4 candidates for the Award for Teaching Excellence.
23. Eligibility to nominate 8 students for the Award for Academic Excellence.

Bronze Sponsor – Rs. 100,000/-

1. Speaker slot (5 minutes) in any one session of Sponsor’s choice.
3. Logo on the stage backdrop of the Summit venue and other locations.
4. Logo on the Indus Foundation’s website connecting to Sponsor’s website.
5. One Table space for interaction with foreign universities for collaborations.
6. Participation opportunity for up to 4 members of Sponsor’s organization.
7. Invitations to 4 members of Sponsor’s staff for Dinner with foreign universities.
8. Accommodation (2 rooms) in a first class hotel (lodging only) for two nights.
9. Distribution of Sponsor’s literature to participants of the Summit.
10. Full page Advertisement in the Summit Souvenir.
11. Profile of Sponsor (four A4 size pages) will be put up on Indus website.
12. Participation in the academic collaboration events.
13. One-on-one meetings with ten selected foreign universities.
14. Two additional sets of Summit materials including the Summit Souvenir.
15. Complementary luncheons and coffee / tea for two days.
16. Eligibility to nominate for the Award for Educational Excellence in 2 different fields.
17. Eligibility to nominate one person for the Award for Eminent Educationist.
18. Eligibility to nominate 2 candidates for the Award for Teaching Excellence.
19. Eligibility to nominate 4 students for the Award for Academic Excellence.

ACCOMMODATIONS FOR PARTICIPANTS

Hyderabad and Secunderabad are twin cities having a very wide range of hotels and other accommodation facilities to suit every budget. Apart from hotels, there are a large number of guest houses and lodges that provide accommodations at very competitive rates. Details of hotels, guest houses, and lodges along with the discounted rates offered by them are
available at http://www.indus.org/. Registered participants of the Summit are advised to contact the hotels, guest houses, and lodges directly and book their accommodations.

**Academic Collaborations**

Academic collaborations are possible between foreign universities and Indian institutions in several fields. Major fields covered would be Engineering & Applied Sciences, Information Technology, Business & Management, Clinical & Health Sciences, Life Sciences & Biomedicine, Agricultural Sciences, Physical Sciences, Environment & Natural Resources, Education & Teacher Training, Arts & Humanities, and Social Sciences.

**Research Collaborations**

International research collaboration has always helped scientists to keep abreast of international science and to share expertise and resources. Today, one-fifth of the world's scientific papers are co-authored internationally — a result of increasingly easy communication and cross-border travel. Research collaboration supports research, training and knowledge transfer in everything from architecture to zoology, apart from supporting world-class research facilities.

The Council of Scientific & Industrial Research (CSIR) is the premier industrial research and development organization in India. CSIR, for example, can play an important role in promoting international research collaboration. In a similar manner, there are a good number of universities, colleges and centres in India that have research programs. These facts indicate opportunities for capacity building for research in India. Research collaboration between Indian institutions and foreign universities will be a “win, win” for all.

**Joint / Dual Degree Programs**

The on-campus programs to be offered in India by foreign universities in collaboration with Indian institutions would be Graduate and Post-Graduate degree programs. The duration of Graduate degree programs would be three to four years while Post-Graduate degree programs would be two years. Students will receive degrees of the foreign universities after successful completion of the programs in India. Foreign universities and Indian institutions will administer the degree programs jointly.

**Joint / Dual Degree Programs**: Collaborative programs are also sometimes known as Joint Degree programs or Dual Degree programs in India. In these programs, Indian institutions will continue to offer their regular Graduate and Post-Graduate programs as per the Indian curricula and give Indian degrees and diplomas after successful completion. Simultaneously, Indian institutions will supplement their existing curricula with the additional curricula of foreign universities. Students who successfully complete the existing curricula and the additional curricula will be given degrees by the foreign universities.

**AICTE**: Collaborative degree programs which are technical in nature, namely, Engineering, Architecture, Computer Science, Business, Hotel Management and Catering Technology, Pharmacy, etc., require the approval of statutory bodies such as the All India Council of Technical Education (AICTE), New Delhi.
Certificate Programs

Certificate programs include corporate training programs, executive development programs, and management development programs. Graduate and Post-Graduate certificate programs are sought in virtually every discipline, including in business, education, health sciences, information technology, humanities, and the arts. Certificate programs are of interest because of their short duration. Students completing the certificate programs offered through Indian institutions will be given certificates by foreign universities.

CORPORATE EDUCATION: Foreign universities can develop custom educational programs which would be primarily delivered by Indian instructors who are experts in their fields. Foreign universities' reputation as valuable collaborators and resources, and the breadth of their programs could enable them to facilitate the growth of leading corporations, public agencies, and non-profit organizations in India.

Twinning / Transfer Programs

Twinning / Transfer programs allow Indian institutions to offer Graduate and Post-Graduate programs which will have their regular curricula. The existing curricula may be supplemented by additional curricula of the foreign universities if desired by Indian institutions. Through Twinning / Transfer programs, Indian students will be able to earn several credits during the course of their normal study in Indian institutions. Students will have the opportunity either to complete their studies in India or to transfer their credits to the foreign universities at any time after completing at least one year of their studies in Indian institutions. Students who opt for transfer can then finish their Degree programs by completing the remainder of credits in-residence at the foreign universities.

Twinning / Transfer programs are "win-win" situations for all concerned parties. Indian institutions are strengthened by access to the latest in foreign curricular developments. Foreign-bound Indian students save substantial cost of studying abroad.

Students enrolling in the Graduate and Post-Graduate programs of the foreign universities will be given Degrees by the foreign universities after successful completion of study. Students who do not plan to go to the foreign universities and students who have been unable to get foreign visas will complete their program of study in India, and would be awarded Indian Degrees by the Indian institutions concerned.

Distance Education Programs

The phenomenal growth of distance education is explained by the fact that over 90% of college students access the Internet, with 50% accessing the Web daily. Also, Indian companies and organizations are spending huge amounts on in-house training and education programs through distance and blended mode.

BLENDED LEARNING

Blended Learning is the process of incorporating many different learning styles that can be accomplished through the use of 'blended' virtual and physical resources. Some of the benefits are:

- Blended learning won’t interfere with student's current job
- Student will cut down on commuting time and costs – save money on petrol and parking.
- Student can meet and connect with classmates online and in person
- Student can enjoy learning in a hands-on environment
- Taking classes at an Indian institution closest to student’s work or home means more convenience and flexibility.

Indian institutions including companies and organizations, in academic collaboration with foreign universities, will be able to offer an array of degree,
diploma, and certificate programs at Bachelor’s, Master’s, and Doctoral levels in a wide range of fields. Students will receive degrees, diplomas, and certificates from the concerned foreign universities after successful completion of the programs in India.

**Vocational Education Programs**

Vocational education in India aims to develop skilled manpower through diversified courses to meet the requirements of organized and unorganized sectors and to instill self-employment skills in people through a large number of self-employment oriented courses. It is expected that there will be an acute shortage of skilled manpower in the world by 2022. Indian manpower will be handy by then. Government of India has already announced skill development for 500 million Indians by 2022.

In the USA and some other countries, community colleges (technical colleges) are primarily two-year institutions of higher education. After graduating from a community college, some students transfer to a university or liberal arts college for two years to complete a bachelor's degree, while others enter the workforce. Community colleges serve the needs of society through training skilled workers and also provide opportunity to students continue their education in professional colleges. Indian institutions have a wide range of opportunities for collaborating with foreign community colleges and technical colleges for skills development.

**Faculty Exchange Programs**

Faculty exchange programs would provide participants with the opportunity to teach or conduct research for one semester or an academic year at a foreign university. Faculty members would benefit from exposure to a culturally varied and diverse faculty make-up, with an opportunity to exchange ideas and observe a variety of styles. Faculty exchange program is one way to take advantage of the benefits of diverse faculty.

In order to create diverse faculty, foreign universities and Indian institutions can develop plans for faculty exchange programs. The benefit will be immediate, and students will have the opportunity to learn concepts and ideas presented in an entirely new and different manner. The faculty exchange programs present a unique opportunity for interaction between foreign universities and Indian institutions.

**Student Exchange Programs**

In student exchange programs between Indian institutions and foreign universities, students choose to study abroad and vice versa in collaborating institutions. An exchange student could live with a host family or in a designated place including hostel, affordable apartment / house or student lodge. The cost for each program differs according to countries and institutions. The participants could either receive scholarship / loan, or be self-funded.

Programs vary depending upon program length, country, content and other factors. Students going on university exchange could pay tuition fees on home campus. Students going on exchange program could choose either to live on campus or off campus.

**Partnership Programs**

Academic Partnership programs can be established for the purpose of improving the academic quality of Indian senior secondary schools, junior colleges, and degree colleges. Partnership programs help to improve the preparation of students for entry into foreign universities.

Partnerships between Indian institutions and the foreign universities may be entered into, so that
Indian students who complete 12th standard could be admitted as freshmen in Graduate programs of foreign universities. Similar partnerships may be entered into so that Indian Graduate students may be admitted to Post-Graduate programs in foreign universities directly.

**Study Abroad in India Programs**

Study abroad in India programs will foster intercultural development among students, who will have the understanding and skills to effectively, humanely, and positively navigate across different cultures.

Studying abroad in India for a semester or year will give students a fresh perspective on themselves, India, and the world. It will expose them to diverse people and viewpoints, and they will get to experience a different way of life apart from their own in their country. They will be immersed in the language, culture, and people of the host country and will get to experience life as residents, not as mere tourists. While studying in India, they will also earn credit towards their current degree.

Students will pay the regular tuition and fees, room and board expenses, to their parent institution. Foreign universities will pay an agreed amount to Indian institutions for providing tuition, room and board. International travel costs will be borne by the students.

**Student Recruitment & Enrollment**

A large number of well qualified and financially able Indian students are interested in opportunities for higher education in good Indian institutions. The Indus Foundation assists Indian institutions to recruit students. Its staff is in a unique position to offer current and relevant advice to Indian students on the one hand and to the Indian institutions on the other. Indian sponsors and Expo participants are invited to recruit and enroll students attending the Summit and Expo. They may also make presentations in the Study Abroad in Asia session.

**Recruitment during the Summit & Expo**

1. Activities during the Summit include recruiting sessions and one-on-meetings with students and parents. Summit will provide an excellent opportunity to recruit and enroll substantial number of qualified students.

2. Attendance of students at the Summit & Expo will be large because of intensive advertising and promotional campaign before the Summit & Expo commences.

3. The Summit will have several thousand students interested in studying good Indian institutions.

4. The Foundation will follow-up with students who attend the Summit & Expo until they actually enroll in Indian institutions.

**Summits 2012, 2011, 2010 & 2009**

The Indus Foundation has been privileged to organize Education Summits in 2012, 2011, 2010 and 2009 in India. The objective of the Summits was to explore opportunities for academic collaborations between Indian institutions and foreign universities. The Summits also guided Indian students about opportunities for higher education in foreign universities. By all accounts, the Summits were considered highly successful. The Summits were attended by CEOs, university chancellors, provosts, deans, faculty, and enrollment / recruitment officers of foreign universities from around the World. Several hundred Indian institutions and organizations interested in academic collaborations
Several thousand Indian students interested in studying abroad attended the Summits. Given below is a select list of foreign participants of the Summits held so far.

**PARTICIPANTS OF SUMMITS**

- Abant Izzet Baysal University, Turkey
- Academic Center of Law & Business, Israel
- Academy 3, Australia
- ACCA (Association of Chartered Certified Accountants), UK
- Alabama State University, USA
- Al-Iraqia University, Iraq
- American Institute of Medical Sciences & Education, USA
- American Intercontinental University, UK
- American University of Sharjah, UAE

A FEW COMMENTS OF PARTICIPANTS

Just a quick note to thank you and all your Indus Foundation colleagues for your kind invitation and gracious hospitality during last week’s Indo-Global Education Summit 2012 in Hyderabad. My congratulations on an excellent forum for discussions and collaboration among Indian universities and universities from throughout the rest of the world. It was truly a global summit. I look forward to strengthening the new relationships generated last week and establishing possible new links. Well done!

Dr. Don Schramm, Program Director, Department of Engineering Professional Development, University of Wisconsin-Madison, USA

I thoroughly enjoyed the Summit and the subsequent tour. I am overwhelmed by India and its people and look forward to progressing ties with its institutions. I would also like to offer a special thanks to the Indus team who I found to be very, very helpful, supportive and excellent hosts.

Dr. Jeff Hollett, Associate Vice President, Student Experience, Mount Saint Vincent University, Canada

Thank you for hosting such a successful event. It was particularly interesting to engage with a multinational list of attendees as most other events I attend are usually very UK focused. We met some good students at the expo and have 4 or 5 strong collaboration leads with Indian and other institutions that we are already progressing with them directly.

Mr. Neil Austin, International Partnership Manager, Edinburgh Napier University, UK

I want to thank you for your warm hospitality and taking such good care of us. It was very special to enjoy dinner at your home as well. It was truly a marvelous trip and I’m confident that my University will indeed develop some important collaborations from it.

Dr. Liz Grobsmith, Senior Advisor to the President for Strategic & International Initiatives, Northern Arizona University, USA

I would like to thank you and your team for the such a great experience and opportunity. We would like to participate on a yearly basis in the Indo Global Education Summit. We would like to do a presentation, do one on one interviews with students / institutions and participate in the Expo.

Dr Prem Ramlachan, Head, International Relations, University of KwaZulu Natal, South Africa

It was my pleasure to have had the opportunity to be among you distinguished individuals who dedicated themselves to the education of young people. Now I have high hopes that my colleagues will start and maintain fruitful collaborations. Very best regards and thank you very much for your and Indian people’s hospitality.
Dr. Mehmet Ozcan, Faculty of Education, Mehmet Akif Ersoy University, Turkey

My gratitude and deepest thanks for the amazing summit you have organized. I know exactly what it takes to organize international conferences, but yours was much more important considering the three cities and all the logistics that goes with it. What a tremendous work and organization! Everything went so well and we have been exposed to the greatest opportunities for research and collaboration.

Dr. Majida Bargach, Associate Director, Center for International Studies, University of Virginia, USA

I am writing to thank you for organizing the Indo-Global Education Summit and Expo 2012. It was very well managed and the opportunity to network with education professionals in India was tremendous. We look forward to discussing possible future collaborations with the Indus Foundation. I hope that we continue to stay in touch as DigiPen continues to explore its options in India.

Mr. Gabriel Lee, Director of Operation, DigiPen Institute of Technology, Singapore

It was a very interesting and diverse group from all over the world providing stimulating dialogue and interaction. The thematic panel format which provided opportunities for panelists to briefly introduce their schools and programs followed by more in depth discussion of panel topics with the participants. Congratulations to you and your staff for a successful event.

Dr. James P. Cross, Associate Provost and Senior International Officer and Professor, Champlain College, USA

This was an excellent summit in every respect and I thoroughly enjoyed every minute. I made very good contacts with the participants and in particular the Indian institutions and am looking forward to the exchanges which will doubtless occur. I would very much like to participate in the next summit.

Dr. Randhir Rawatlaal, Director of Undergrad Studies, University of Cape Town, South Africa

I want to thank you for coordinating a valuable and successful summit. This was our first time participating, and we found it valuable on many levels. We now have a much better sense of how to participate fully and gain value from the event, and I am certain that we will participate in the future. I want to commend you and your colleagues for making possible the intersection of interests and collaborations that will be so valuable for India's educational future. We are honored to be a part of the is bright future.

Dr. Dennis A. Trinkle, Provost and Chief Academic Officer, Harrison College, USA

Very many thanks for a superbly organized and very well planned conference. We enjoyed it very much and it has already led to many productive conversations.

Dr. Kay Mohanna, Director of Postgraduate Programmes, Keele University School of Medicine, UK

Thank you for everything during the Education Summit. It was a real pleasure to have met you.

Dr. Gustavo Perrusquia, Director of International Affairs, Chalmers University of Technology, Sweden

May I take this opportunity to thank you and your team for the wonderful opportunity to confer with my Indian counterparts? I was especially impressed by the standard of organization at each of the venues. I have personally benefited enormously from the experience and now have a very good working knowledge of the Indian education scene. I also enjoyed meeting with participants from other parts of the world and sharing notes with them. Please keep me posted with regard to next year's summit, I am very interested to participate once more.

Mr. Mohamed Rashid Desai, Director International, School of Accounting, Curtin University, Australia

It was an absolute pleasure attending the Indo-Global Education Summit 2011. I met many people, made many useful and interesting connections for potential collaborations and made many new friends from all around the world. The whole experience was fabulous. I will let you know of the progress that we make in our collaborations.

Dr. Julia Brown, Head of External Relations, Aston University, UK

Thank you for notifying me about the 2013 Summit in Hyderabad. Please include me on the list of people to whom you send additional details.

Dr. Janice S. Miller, Professor of Management, Associate Dean-Academic Affairs, Sheldon B. Lubar School of Business, University of Wisconsin-Milwaukee, USA

Greetings from Louisiana State University! Thank you very much for the great Summit. It was very productive and fruitful to me.

Prof. Ye-Sho Chen, Director of Emerging Markets Initiative, Louisiana State University, USA
Thank you for all of your work on our behalf.

Dr. Rosalie Giacchino-Baker, Faculty Director, Center for International Studies and Programs California State University, San Bernardino, USA

I will like to personally commend you for a well-organized Summit of that magnitude. It was quite a scintillating experience rubbing minds with scientists and academics of diverse interests and disciplines from all over the World. As you are aware, my University is very keen in collaborating with Indian Institutions. Let me use this opportunity to join other members of the Nigerian contingent to express our sincere gratitude to you and the Indus Foundation for the opportunity given to us to participate in the 2011 Summit.

Prof. Emilororun Ambrose Aiyelari, Dean, Faculty of Agriculture and Forestry, University of Ibadan, Nigeria

First of all, I would like to thank you and organizers of Indo-Global Educational Summit 2011 for successful organization of meetings and possibility to meet so many people from India and other countries. We have reported the results of participation in Summit, and our University authorities are looking for ways of improving collaboration with India.

Dr. Igor Cemortan, Head of the Department of Molecular biology and Human genetics SMPhU "Nicolae Testemitanu", Moldova

Congratulations on the event, which I believe was quite successful. I met a few students, and am now in talks with several other universities, so all the objectives I had for this event were met.

Dr. Ricardo Rato, Co-Registrar, University of Saint Joseph, Macau, China

I would like to thank you and all your staff for the wonderful Indo-Global Education Summit 2011. It was a real pleasure for me to participate in this event, to meet many wonderful people, to establish many new contacts and to learn a lot about your great country. I do appreciate very much your time spent on our conversations on India, on Poland and on the World. Thank you very much also for the organization of the sightseeing. It was fantastic!

Prof. Dr Maciej Zukowski, Vice-Rector for Research and International Relations, Poznan University of Economics, Poland

First, I want to thank you for your hospitality and another successful Summit. Attending the Summit for the third year I am confident that we will establish some collaborations with the Indian institutions. There is enormous potential. I visited one specific college which I feel fits the mission of D’Youville College and we are currently working on the evaluation process. I strongly recommend the other American delegates to be patient and persistent in developing collaborations with the Indian institutions.

Dr. Arup K. Sen, Vice President for Academic Affairs, D’Youville College, USA

I think the idea behind the Indus Foundation’s concept of providing a venue in which to assist Indian and American institutions to forge academic partnerships over the upcoming years, is brilliant and far-sighted. The initiative appears to be working already, at least from my institution’s perspective, as evidenced by the great deal of email interchange between our institutions since the conference. We hope to see some of these initial forays result in substantive and programmatic joint efforts over time.

Dr. Carol Magai, Dean of Research, Long Island University, USA

Participating in the Summit was one of the most enriching and productive experiences of my whole professional life: through the Summit in Hyderabad and the Universities tour to Chennai, Bangalore, Mumbai and Delhi I was able to know better your beautiful country, admire its people and culture and, most of all, understand the university system. The whole program was very well designed and very efficiently conducted by Mr. Anumolu and his staff. I did find my partners-to-be in India through the Summit, and this is an excellent outcome.

Dr. Rosa Marina de Brito Meyer, Associate Vice-President, Pontifical Catholic University, Brazil

Thank you for organizing this wonderful trip. Peggy (vice-provost) and I both found it to be most instructive. Exciting things are happening in India, and it is imperative that we have opportunities such as this, to get to know each other. Please don’t hesitate to contact me if I can be of service to you in your efforts to bridge Indian and American higher education.

Dr. Jamshed Bharucha, Provost & Senior Vice President, Tufts University, USA

Thank you for the truly enlightening experience of the recent Summit. It was an extremely enriching and fruitful collaboration in terms of bringing us together with our colleagues from across the world in the Indian education sector. The attention to detail and seamless transition during the summit and between cities was a mark of a highly skilled planning team and was indicative of the care and thought your
committee put into this summit and your efforts are genuinely appreciated.
Ms. Vanessa Vardon, Graduate, Research and Int’l Programs Manager, Drexel University, USA

It was a great pleasure meeting you and attending the summit. I would like to thank you for the excellent arrangements and for providing the opportunity to meet with personnel from Indian higher education institutions. Dr. Tadisina and I will be following through with some of the contacts we had established at the summit.
Dr. Ramanarayanan Viswanathan, Interim Dean and Professor, College of Engineering, Southern Illinois University Carbondale, USA

Thank you for organizing the outstanding Indo-American Summit. You and everyone else from the Indus Foundation have much to be proud of. The event was a phenomenal success, thanks to the dedication and hard work of everyone involved.
Dr. Bert Barry, Director of International Services, Saint Louis University, USA

First of all, I want to extend my heartfelt thanks to you and your organization for the excellent job you did with the Summit. Both my wife and I enjoyed our participation immensely. I am now in the process of going through the various proposals I have received from institutions in India and will be trying to evaluate these with the help of our staff here to see which of these we may wish to pursue.
Dr. Stephen Durrant, Vice Provost, International Affairs, University of Oregon, USA

To those of you responsible for the logistical matters, please accept my heartfelt thanks for the very smoothly managed event and the overall very fine experience. I have so many vivid memories it is hard to select the most meaningful; however, among the top of my recollections - as of this moment - are the highly accomplished chief guests, the sincerity of everyone with whom I worked, and the opportunities for future relationships with Indian professionals and students alike. The participation by Indian delegates and students was quite inspirational.
Dr. Pamela S. Cutright, Special Assistant to the Campus Provost, WVU Institute of Technology, USA

We enjoyed our trip enormously and are grateful for your hospitality. While the meetings were intense, we were impressed by the level of enthusiasm of the participants and the number of opportunities. Since then we have established communications with a number of institutions and are considering a number of collaboration opportunities.
Dr. Keya Sadeghipour, Dean, Temple University College of Engineering, USA

Mr. C.D. Arha, IAS (Retd.)

Mr. C. D. Arha, 68, is the Chairman of the Indus Foundation. He joined Indian Administrative Service (IAS) in 1968. He served the Government of India and the State Governments of Andhra Pradesh and Rajasthan in various top level positions. Mr. Arha was Secretary in the Ministry of Coal & Mines, Government of India. He worked with FAO of the United Nations, Rome. Mr. Arha also served as Chief Information Commissioner, Information Commission, Andhra Pradesh. He worked with distinction as Chairman of several large Indian public sector enterprises, namely, Hindustan Zinc Ltd, Neyveli Lignite Corporation, and Coal India Ltd. Mr. Arha is presently serving as Director of Taj GVK Hotels and Resorts Ltd, Emami Ltd, Anand Rathi Financial Services Ltd, and ACB (India) Ltd. He holds an M.A. (History) and diploma in Management & Administration of Rural Development (University of Birmingham, UK).

Mr. S.B. Anumolu

Mr. S.B. Anumolu, 66, is the President of the Indus Foundation, New Jersey, which was founded in 1995. Mr. Anumolu obtained his Master’s degree from the Indian Institute of Management, Bangalore (IIM-B). Mr. Anumolu joined the Indian Police Service (IPS) in 1969 and was trained at Mussorie and Mt. Abu in India. He worked for 18 years in various senior level positions including that of Deputy Inspector General of Police before leaving Government service. He received letters of commendation from the Government for the good work done. He worked as Managing Director of an industry for six years and later as Managing Director of a management consulting company for six years and led several business delegations to the USA, Canada, Japan, the UAE, and other Gulf countries.
