ACKNOWLEDGEMENT

In the name of Allah, the most beneficent and merciful', I am indebted to my research supervisor, Prof. (Mrs.) Hamida Ahmad. She inspired me a lot for her ungrudging gestures, painstaking involvement and perceptive advice during the course of the study.

I would like to express my sincere thanks to Prof. Shamim Ahmad Ansari, Chairman, Department of Psychology for providing me departmental support of this study.

I also owe thanks to all teachers of department of Psychology A.M.U., Aligarh for their co-operation and suggestions.

I am also grateful to authorities of mentally retarded schools in Meerut, Muzaffarnagar for their great cooperation. My special thanks goes to Mr. Bhatnagar, Principal of Mentally Retarded School (Chetna) in Meerut, for his guidance and help in data collection.

My special thanks goes to mothers of all mentally retarded children school for helping me in data collection.

My special thanks goes to National Medical Library of All India Institute in Delhi for collection of the material.

I am thankful to my friend Miss Ali Zehra, who helped me in data analysis, my room-mate Naseem Fatma for her great cooperation.

I am grateful to my loving mother and father who had supported me fully, elder sister, Mrs. Shahla Poursaied and my younger sister Shahnaz Poursaied and Shiva Poursaied for financial and moral support.
