PUBLICATIONS

Recent Publications in reputed international journals

2. Preparation, characterization and electrical conductivity studies of the rare earth based lithium silicates, M. Vijayakumar, M. Venkateswarlu, N. Satyanarayana, Communicated to “Journal of Alloys and Compounds”.

3. Impedance and electrical conductivity studies of nano crystalline metal oxides, synthesized by combustion methods. M. Vijayakumar, M. Venkateswarlu and N. Satyanarayana, Communicated to “Material Research Bulletin”.

4. Preparation, Characterization and electrical conductivity studies of nanocomposite polymer solid electrolytes, M. Vijayakumar, M. Venkateswarlu and N. Satyanarayana, Communicated to “Solid state Ionics”.

5. Design construction and performance studies of homemade battery cycle tester, M. Vijayakumar, S. Ramasamy, M. Venkateswarlu, and N. Sathyanarayana communicated to journal of instrumentation.

Research publications in International & National conference proceedings
