LIST OF TABLES

1. Stratigraphy of Lameta Formation of Jabalpur area. 6

2. Statistical parameters of grain size distribution of the sandstones of Lameta Formation of Jabalpur area (Madhya Pradesh). 35

3. Roundness of detrital grains of the sandstones of Lameta Formation of Jabalpur area (Madhya Pradesh). 40

4. Sphericity of detrital grains of the sandstones of Lameta Formation of Jabalpur area (Madhya Pradesh). 43

5. Textural maturity of the sandstones of Lameta Formation of Jabalpur area (Madhya Pradesh). 46

6. Percentages of detrital minerals in Lameta sandstones of Jabalpur area (Madhya Pradesh). 59

7. Percentages of heavy minerals in the sandstones of Lameta Formation of Jabalpur area (Madhya Pradesh). 64

8. Types of quartz in the sandstones of Lameta Formation of Jabalpur area (Madhya Pradesh). 76

9. Classification and symbols of grain types (after Dickinson, 1985). 83

11. Percentages of various types of grain to grain contacts of the sandstones of Lameta Formation of Jabalpur area (Madhya Pradesh)

12. Percentages of detrital grains, matrix, cement and void spaces of the sandstones of Lameta Formation of Jabalpur area (Madhya Pradesh)
