Acknowledgements

It gives me great pleasure to express my sincere gratitude to Professor R. H. Duncan Lyngdoh, my Research Supervisor, who introduced me to the field of Theoretical/Computational Chemistry. I thank him for the valuable guidance, able supervision, cheerful enthusiasm, ever-friendly nature and for making all-out efforts towards the completion of my research work. His great encouragement and advice are of great value to me and cannot be simply forgotten throughout my life. It has been an honor to work with him.

I would like to express my gratitude to Prof. B. Myrboh, Head, Department of Chemistry, NEHU, for providing all the necessary facilities to do my research.

My deep gratitude goes to Dr. A. K. Chandra, Dr. S. Aravamudhan, all the Faculty members, Research Scholars, Staff of the Chemistry Department and the Librarians (NEHU) for their support and help.

I wish to convey my heartfelt thanks and gratitude to my friends/research colleagues, Mr. A. Munaf Kharbuli, Mr. Kiew Shaprag Kharnaor, Mr. Henry N. Pangamte, Ms. Tejeshwori Salam, Ms. Shougajam Premila Devi and Ms. Shilpi Mandal for their valuable help, patience and constant encouragement. I wish them success in life.

I also acknowledge my thanks to the University Grants Commission, Government of India, New Delhi, for financial support in the form of RFSMS (Research Fellowship in Science for Meritorious Student).
Finally, I wish to place on record my sincerest and heartfelt thanks to my beloved parents who stood by me as the source of encouragement and support. I dedicated this Thesis to them to honour their love, patience and support.
