8 Correlation Matrix for the Total Sample (N=400) indicating the correlation between Parental Encouragement and Vocational Aspiration

9 Correlation Matrix for Female Students (N=200) indicating the correlation between Parental Encouragement and Vocational Aspiration

10 Correlation Matrix for Male Students (N=200) indicating the correlation between Parental Encouragement and Vocational Aspiration

11 Distribution showing Mean and Standard Deviations of Peer Acceptability and Educational Aspirations

12 Distribution showing t-test scores indicating Significance of Difference between Means of Male/Female Groups of Peer Acceptability and Educational Aspiration

13 Correlation Matrix for the Total Sample (N=400) indicating the correlation between Peer Acceptability and Educational Aspiration

14 Correlation Matrix for Female Students (N=200) indicating the correlation between Peer Acceptability and Educational Aspiration

15 Correlation Matrix for Male Students (N=200) indicating the correlation between Peer Acceptability and Educational Aspiration

16 Correlation Matrix for the Total Sample (N=400) indicating the correlation between Peer Acceptability and Vocational Aspiration
17 Correlation Matrix for Female Students (N=200) indicating the correlation between Peer Acceptability and Vocational Aspiration

18 Correlation Matrix for Male Students (N=200) indicating the correlation between Peer Acceptability and Vocational Aspiration

19 Distribution showing Mean and Standard Deviations of Socio-Economic Status and Educational Aspirations

20 Distribution showing t-test scores indicating Significance of Difference between Means of Male/Female Groups of Socio-Economic Status and Educational Aspirations

21 Correlation Matrix for the Total Sample (N=400) indicating the correlation between Socio-Economic Status and Educational Aspiration

22 Correlation Matrix for Female Students (N=200) indicating the correlation between Socio-Economic Status and Educational Aspiration

23 Correlation Matrix for Male Students (N=200) indicating the correlation between Peer Acceptability and Educational Aspiration

24 Correlation Matrix for the Total Sample (N=400) indicating the correlation between Socio-Economic Status and Vocational Aspiration

25 Correlation Matrix for Female Students (N=200) indicating the correlation between Socio-Economic Status and Vocational Aspiration
26 Correlation Matrix for Male Students (N=200) indicating the
   correlation between Socio- Economic Status and Vocational
   Aspiration
27(a) ANOVA Summary: For the Educational Aspiration Scores of
   the Sample
27(b) Mean Values for Different Groups of Subjects based on
   Combination of Parental Encouragement, Peer Acceptability
   and Socio- Economic Status
27(c) Mean Values for Different Groups of Subjects based on
   Combination of Parental Encouragement and Peer Acceptability
27(d) Mean Values for Different Groups of Subjects based on
   Combination of Parental Encouragement and SES
27(e) Mean Values for Different Groups of Subjects based on
   Combination of SES and Peer Acceptability
28(a) ANOVA Summary: For the Vocational Aspiration Scores of the
   Sample
28(b) Mean Values for Different Groups of Subjects based on
   Combination of Parental Encouragement, Peer Acceptability
   and Socio- Economic Status
28(c) Mean Values for Different Groups of Subjects based on
   Combination of Parental Encouragement and Peer Acceptability
28(d) Mean Values for Different Groups of Subjects based on
   Combination of Parental Encouragement and SES
28(e) Mean Values for Different Groups of Subjects based on
   Combination of SES and Peer Acceptability
29(a) ANOVA Summary: For the Educational Aspiration Scores of
   Girls
29(b) Mean Values for Different Groups of Subjects based on Combination of Parental Encouragement, Peer Acceptability and Socio-Economic Status

29(c) Mean Values for Different Groups of Subjects based on Combination of Parental Encouragement and Peer Acceptability

29(d) Mean Values for Different Groups of Subjects based on Combination of Parental Encouragement and SES

29(e) Mean Values for Different Groups of Subjects based on Combination of SES and Peer Acceptability

30(a) ANOVA Summary: For the Vocational Aspiration Scores of Girls

30(b) Mean Values for Different Groups of Subjects based on Combination of Parental Encouragement, Peer Acceptability and Socio-Economic Status

30(c) Mean Values for Different Groups of Subjects based on Combination of Parental Encouragement and Peer Acceptability

30(d) Mean Values for Different Groups of Subjects based on Combination of Parental Encouragement and SES

30(e) Mean Values for Different Groups of Subjects based on Combination of SES and Peer Acceptability

31(a) ANOVA Summary: For the Educational Aspiration Scores of Boys

31(b) Mean Values for Different Groups of Subjects based on Combination of Parental Encouragement, Peer Acceptability and Socio-Economic Status

31(c) Mean Values for Different Groups of Subjects based on Combination of Parental Encouragement and Peer Acceptability
31(d) Mean Values for Different Groups of Subjects based on Combination of Parental Encouragement and SES

31(e) Mean Values for Different Groups of Subjects based on Combination of SES and Peer Acceptability

32(a) ANOVA Summary: For the Vocational Aspiration Scores of Boys

32(b) Mean Values for Different Groups of Subjects based on Combination of Parental Encouragement, Peer Acceptability and Socio-Economic Status
