Acknowledgments

First of all I would like to thank the Almighty Allah, for giving me strength to complete this work.

In the process of working for my thesis I have incurred debt of a large number of people who directly or indirectly supported me in this endeavour. The number of people who helped me is truly large. However, I would like to place on record for only some of them.

I take this opportunity to express my deep sense of gratitude to my Guide, Dr. Mohammad Israrul Haque, for his guidance and advice. It was Dr. Haque’s constant encouragement and support that sustained my interest in the research. The thesis has immensely benefited from his learned guidance and comments during the course of our discussions.

I would like to thank Dr. Jamal Ahmad Farooqui who introduced me to this topic as I was initially registered with him.

The study covered a sample of doctors and patients from Delhi, Aligarh and Amroha. There are a number of people how helped me in data collection. For this I am especially thankful to Mr. Khamis Raza Taqvi (Delhi), Mr. Samar Raza Taqvi, Mr. Faisal Azeem Khan (Aligarh) and Ms. Saba Tausif (Aligarh).
I would like to thank Prof. Kaleem Mohd. Khan (Dean & Chairman) for his constant encouragement, support and advice. Thanks are also due to Dr. Naved Khan and Mr. Asad Rehman, who helped me immensely in preparation of questionnaire. I take this opportunity to thank all other teachers of the Department who has always been ready to help me. Their knowledgeable advice and suggestions have gone a long way in making this research possible. Thanks are also due to Prof Sultan Akhtar and Dr. Yogesh Gupta of Ophthalmology Department, J.N.M.C., for their valuable additions and suggestion.

I must thank my friends S. Raheel Ahmad, Syed Saqib Alvi, Rashid Usman Ansari, for providing necessary motivation and support. I owe my gratitude to my friend Dr. Mohd. Muslim and Mr. Preetam Singh Yadav for meticulously proofreading the manuscript and removing the discrepancies. I am also indebted to Dr. Mohsin Aziz and Dr. Doud Salim Faruquie, their advice and suggestions regarding statistics were most valuable.

Acknowledgement is also due to the librarians and staff of the Moulana Azad library (Aligarh Muslim university). I must also thank the staff of Seminar of Department of Business Administration (Aligarh Muslim University), Seminar Library of Z.H. Engineering College (Aligarh Muslim University),
Seminar Libraries of J.N. Medical College (Aligarh Muslim University).

I would like to thank my Parents for their blessings and faith in me, and my larger family for keeping my morale high in this arduous task.

Lastly, I would like to thank my wife Razia and son Faiz, who had suffered a lot because of my long absence for this work. Without their encouragement and support this research would not have been possible.

Despite the support of so many persons, the flaws and inconsistencies are due to my own frailties.
