ACKNOWLEDGEMENT

I, Shri Asim Kumar Bandyopadhyay, the student for the research project titled: “Dividend Decisions in Indian Firms with Special Reference to Engineering Sector”, gratefully acknowledge the helps and favours received from the following organizations or people in successfully completing this research project and submitting this dissertation.

Firstly, I am greatly indebted to the authorities of the Aligarh Muslim University (AMU) for admitting me as a research student to undertake this project. In particular, my sincere thanks go to Prof. Dr. Kaleem Mohammed Khan, the erstwhile Dean and Chairman of the DBA committee, AMU and Prof. Javed Akhtar, the present incumbent Dean, for allowing me the extended period for submitting the dissertation under compelling and stressful circumstances.

Secondly, I am sincerely thankful to Prof. Dr. M. Khalid Azam, my internal guide/advisor for the project work for his valuable guidance and advice throughout the duration of the project. He has displayed unlimited patience in advising me despite my myriad, albeit inadvertent, shortcomings.

Thirdly, I am gratefully indebted to Dr. S. Ramesh, of Mount Carmel College, Bangalore, my external guide/advisor for this research project for his valuable guidance/advice whenever sought for, sometimes, under very difficult circumstances.

Lastly, my thanks go to the members of my family i.e. my wife Smt. Amita Bandyopadhyay, and my daughter Angana, for having put-up with occasional inconveniences and irregularities caused by my, although unintentional, inattention and indifference in the family and societal affairs, particularly during the writing of the dissertation. Without their patient cooperation, writing and compilation of this thesis would not have been possible.

A.K. Bandyopadhyay
