

ACKNOWLEDGEMENT

I shall begin with God the almighty: without His will I would have never found the right path. His mercy was with me throughout my life and ever more in this study. I thank Him for enlightening my soul with the respected love and compassion for the other humans and allowing me to enter a field where I could practice this desire.

*I take immense pleasure to express my sincere and deep sense of gratitude to my supervising guide and mentor, **Dr. C. S. Paulose**, Director, Centre for Neuroscience, Professor and Head, Dept. of Biotechnology, Cochin University of Science and Technology for his sustained enthusiasm, creative suggestions, motivation and exemplary guidance throughout the course of my doctoral research. I am deeply grateful to him for providing me necessary facilities and excellent supervision to complete this work. His passion for work and zeal for scientific excellence has exceptionally inspired and enriched my growth as a student and a researcher as well. I am short of words to express my sincere appreciation for his patience and tolerance to me throughout this period. His understanding, encouraging and personal guidance have provided a good basis for the present thesis. I am solemnly indebted to him more than he knows or words can ever convey.*

I thank Dr. E. Vijayan, ICMR Emeritus Professor, for his help and encouragement throughout my work.

I would like to extend my profound thankfulness to Dr. Babu Philip, Department of Marine Biology, Microbiology and Biochemistry for his valuable suggestions and encouragement. I take this opportunity to thank Prof. R. Muralaitharan Nair, Dean and Faculty of Science, Cochin University of Science & Technology for his help extended to me.
