Acknowledgements

First of all, I would like to take the opportunity to express my heartfelt and sincere gratitude to my teacher and supervisor, Dr. Ruli Borah for the constant support and motivation she has lent me throughout the entire phase of my research work. This work would never have been able to see the light of this day without her being beside me and the tremendous enthusiasm and moral support bestowed by her upon me.

I thank the Head of the Department of Chemical Sciences and my doctoral committee members, Prof. Ramesh C. Deka and Dr. Ashim J. Thakur for the valuable suggestion that I received from them whenever I was in true need. I will always remain thankful to all the faculties and technical staffs of the department for all the help they extended during the needful moments of my research period.

I would like to thank the Vice Chancellor of Tezpur University for allowing me to do research in this University and providing me the institutional fellowship for the same. For the later part of the fellowship, I thank UGC for the BSR fellowship. I greatly acknowledge the Sophisticated Analytical Instrumentation Centre, Tezpur University for the analysis of the different samples. I am also thankful to the administrative staff for their help.

The role of my undergraduate teacher, Dr. Diganta Choudhury of B. Borooah College, in motivating and inspiring me to pursue a career in chemistry is far beyond worth to express in words. Mere words cannot define his influence upon me.

I am very fortunate indeed and thankful to the Almighty to have a friend like Subhi who has always supported and helped me in every possible manner. Her friendship is a precious treasure for a lifetime.

I am thankful to my seniors, Dr. Kalyan Jyoti Borah, Dr. Dhrubajyoti Talukdar Dr. Siva Prasad Das, Dr. Jeena Jyoti Baruah, Dr. Bidyut Deka for their help
during my research phase. I am very gratified to all my lab juniors, Parishmita, Arup, Pinky and Susmita who were always ready to help me at any problem.

Certain people have always helped me and I can count on to them at any time who I would like to thank specially. They are Tridib Da, Aradhana Ba, Gaurango, Apurba, Hemanta, Rasna ba, Nibedita Ba, Shaswat, Pratisha, Julee, Pranav, Monoj, Kundan, Jyotish, Ujjal.

I would like to thank Hriday, Hirak, Iftikar and Priyakshi for solving the computer-related technical problems whenever I encountered.

I would like to mention that some people have contributed immensely towards my being independent by turning down to help me. I thank these people who unknowingly and indirectly have made me strong enough to face this challenging world and overcome any crisis confidently. I might miss out someone, but would like to thank everyone who has helped me in any manner, no matter how minute it is, during my Ph.D period.

Being a hostel boarder, I cannot ignore the care I got from the hostel menials, “mahis” especially during the days of my ill health. Far away from home, they made me feel at home.

Last but not the least, I would like to thank my parents and my sister for supporting me through every thick and thin and for the constant moral support. They were the targets of all my bad moods and frustrations, but they always understood and stood strong beside me. This day is an answer to all the prayers and blessings of my family, relatives and well wishers.
