ACKNOWLEDGEMENT

Words cannot suffice to express my gratitude to my teacher and supervisor Prof. Abdul Azim for his guidance and concern for my work. He generously gave his time and effort and helped me on every step. He encouraged me and gave every kind of support. Without his constant encouragement it would not have been possible for me to finish my work.

I would like to express my deep gratitude to Prof. William Diver of Columbia University. He took the trouble of reading the first draft of many chapters and gave valuable suggestions.

I would like to express my special thanks to Prof. Iqtidar Husain Khan, Chairman, Department of Linguistics, for his encouragement and valuable suggestions.

I owe a great debt to Mr. Mobin A. Khan, Reader, Department of Linguistics. He not only gave me moral support but offered me advice on many important matters.

I would also like to thank Mr. Najeebul Hasan Khan, Incharge Seminar Library, Department of Linguistics, for his constant help and concern.

Thanks are also due to Mr. Abdul of Department of Linguistics who always gave me moral support.

I would also like to thank Mr. M. Sajjad Khan for typing my thesis.
At the end, I want to express my special appreciation for my mother Amina Surti, father Ahmad Surti and all my brothers and sisters, who always encouraged me and gave me all kind of support.
