Acknowledgements

Behind every success there is certainly the unseen power of Almighty God, the most Beneficent, the most Merciful. But an aim is the eternal condition of success, which is attainable at perfection in everything by those who preserve with the association of their predecessors, teachers, family, friends and colleagues.

It was good fortune and a matter of pride and privilege for me to have the brilliant supervision of Dr. Mohd Ilyas Khan, Department of Psychology, A.M.U., Aligarh, who has inculcated in me the interest and inspiration to undertake research. I gratefully acknowledge my deep indebtedness to him for his able guidance and cordial cooperation from the inception to the completion of this research work. I owe him much for all that I learnt and gained from him.

My indebtedness is also due to Prof. Akbar Husain, Chairman, Department of Psychology, A.M.U., Aligarh, who shared with me his intellectual rigor offering his valuable personal time in the editing process. His commitment to excellence is inspiring and he gave me several key insights on many occasions. I am also thankful to him for providing the necessary facilities in the department for carrying out the work.

I would like to express my sincere gratitude to Professor Qamar Hasan, former Chairman, Department of Psychology,
AMU, Aligarh, for his worthy suggestions and constructive criticism at various junctures of my research work.

It would be an injustice if I fail to express my special thanks to all the teachers in the Department of Psychology, whose concern about the progress of my work boosted my morale. They were instrumental in bringing the study to completion.

To my parents, I owe indebtedness. They always stressed the importance of learning and exploration. They helped me through thick and thin alike to keep me focused towards my goal. Their love, moral support, cooperation and sacrificial devotion towards my studies are the base of my every success. I feel humbled by their love, affectionate and blessings.

I also express my thanks to all the members of the technical and non-teaching staff, Department of Psychology AMU, Aligarh, for their support and cooperation.

I would like to express my deep gratitude to Indian Council of Social Science Research (ICSSR), New Delhi whose help provided the needed continuity to my research work.

Ageel Khan
